

2024 Timed Entry Reservations

In 2024 timed entry reservations are required to enter the Paradise Corridor (May 24 - September 2) and Sunrise Corridor (July 4 - September 2) from 7 am to 3 pm. Next day reservations will be released starting at 7 pm Pacific Time (PT) daily.

Reservations must be made on Recreation.gov, Rec.gov App, or by phone. Tickets will not be available at entrance stations.

Once you've secured your reservation, don't forget your timed entry ticket and photo ID. Show your park pass or pay the entrance fee with credit, debit, or other forms of electronic payment.

Why Timed Entry?

Mount Rainier National Park has experienced an approximate 40% increase in visitation over the last 10 years, leading to overcrowding during the summer and damage to fragile ecosystems. In 2024, Mount Rainier National

Park will implement a pilot timed entry reservation system to improve the visitor experience to the park by reducing wait times, congestion, and resource impacts on trails caused by overcrowding.

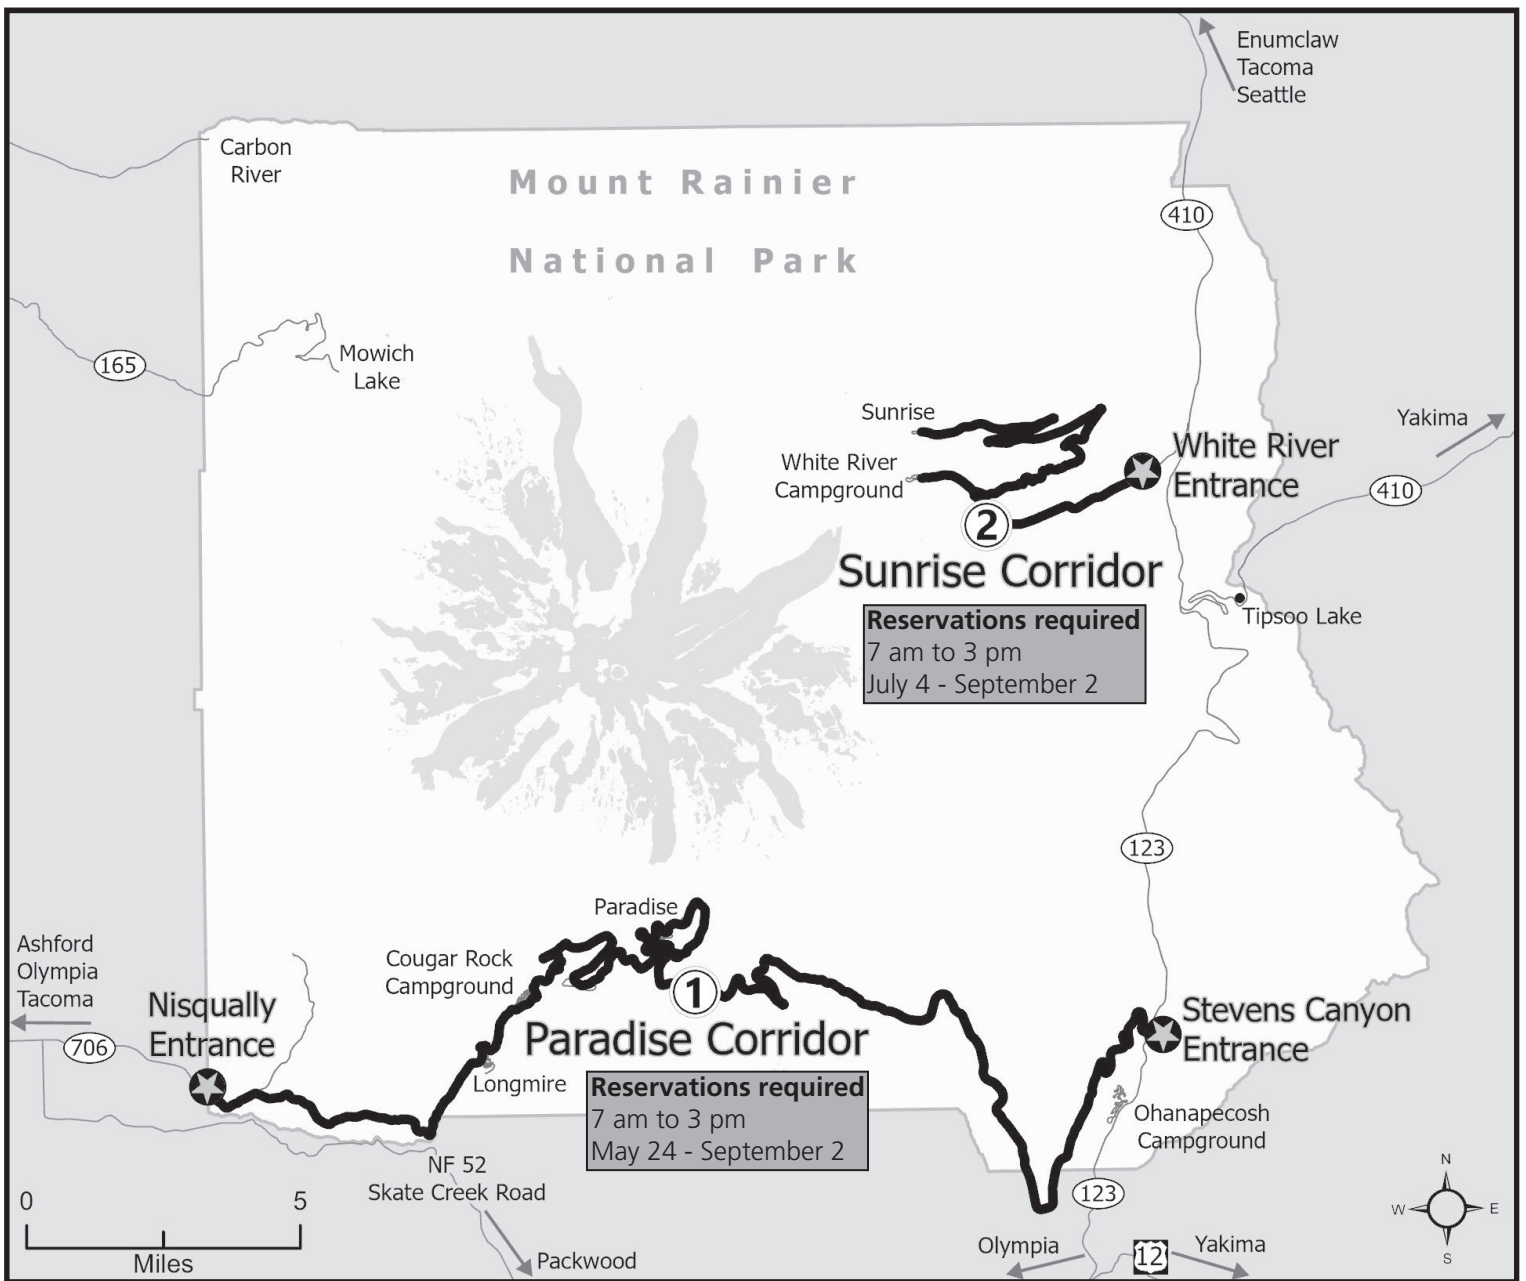

Other Park Reservations

- Visitors with reservations at the National Park Inn in Longmire, Paradise Inn, or Cougar Rock Campground within the Paradise Corridor can use proof of their reservation for entry after 1:00 pm on the day of their reservation instead of using a timed entry reservation to gain access to the Paradise Corridor. See the FAQ page for details.
- Visitors who acquire a first-come first-served permit at White River Campground within the Sunrise Corridor can use their camping permit instead of using a timed entry reservation to gain access to the Sunrise Corridor. See the FAQ page for details.
- Visitors with Wilderness Permits or Special Use Permits can use their permits instead of using a timed entry reservation to gain access to the associated corridor of their permit. Check your permit carefully for instructions for your specific permit; access varies.

Visit Without A Reservation

ALL areas of the park require a park entrance fee or park pass to enter. Timed entry reservations are only required between 7:00 am and 3:00 pm to enter the Paradise and Sunrise Corridors. Outside of that period, visitors can enter without a timed entry reservation. Some areas of the park do not require a timed entry reservation at any time. These are:

- SR410 and SR123 on the east side of the park.
- Ohanapecosh, including the Ohanapecosh Visitor Center and Campground, in the southeast corner of the park.
- Tipsoo Lake on the eastern border of the park along SR410.
- Carbon River, including the Carbon River Ranger Station, at the northwest corner of the park.
- Mowich Lake in the northwest corner of the park along SR165.
- Nearby Forest Service lands.
