

**I can go to a visitor center at
Mount Rainier National Park.**

I can do and see a lot of interesting things inside the visitor center.

There are exhibits I can touch. There are facts I can learn.

The road to get to the visitor center will be curvy and long.

I will see big trees.

For the drive, I could pack water, snacks, and some sunglasses.

When we get to the visitor center, there might be a lot of cars in the parking lot.

If we don't find a spot, we can keep looking.

The visitor center is
a place where I
can take a break.

I can look out the
window, maybe I
will see a mountain.

A ranger works at the visitor information desk.

The ranger can answer my questions. I can tell the ranger if I need help.

I can ask the ranger for a Junior Ranger activity book.

It can be noisy in the visitor center.

There might be a lot of people talking.

There might be videos playing with sound coming out.

There will be photos
of the park and things
I can touch in a special
area of the visitor center.

There will be videos
I can watch to learn
about the park.

I can go to the
bathrooms near
the visitor center.

There might be a
picnic table for eating
or resting outside.

When we are done learning and resting, we can go back to the car or explore outside.

I did a great job and feel proud of myself.

I went to a visitor center at Mount Rainier National Park.
