

## Student Worksheet 4. Team: Commanders of Strategic Planning and Mapping

Learning skills: Mapping, Problem solving

### Team: Commanders of Strategic Planning and Mapping

Your assignment:

You are to determine the best route for getting supplies to the camp, safely moving the army to strategic locations for the best defense of the camp and area civilians, and observing the enemy army's movement.

Your task:

- Using aerial views and maps of your school location, town and county prepare a large map to show routes for bringing supplies, moving soldiers from the camp to other areas, and preventing enemy attacks. Color code your map to indicate what activities will take place along the route, i.e. red for supplies delivery, green for soldier movements to protect the camp, etc,
- Include on your map nearby waterways, i.e. rivers, creeks, and lakes; mountains, and forests and make labels to describe how they will help to move supplies and soldiers and protect the camp.
