

June 1926

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE  
YOSEMITE NATIONAL PARK

OFFICE OF THE SUPERINTENDENT

CALIFORNIA

July 7, 1926

Dear Sir:

I am transmitting herewith report of the Yosemite National Park for the month of June, 1926:

000 - General

June was a typical month of clear, warm weather, which was modified to some extent by thunder showers in the mountains, which early in the month caused one very serious fire below Glacier Point. The water in the streams dropped very rapidly as soon as the first rush from the melted snows was over; and all roads and trails in the higher country opened much earlier than usual.

100 - Administrative

110 - Status of Work

The office work is exceedingly heavy and we have been handicapped by the new employees that have been recently taken on who are not yet entirely familiar with their duties. Chief Clerk Cumberland resigned at the close of June 15 and returned to his former home in Washington, D.C. His place was filled on July 1 by Mr. Fred L. Conner. Cashier Alfred R. Hornor resigned at the close of June 7, and Mr. Albert Wozniak is filling his position. Accountant Wells is still doing the cost accounting and bookkeeping work, but his status is still that of a temporary employee. The work is not getting behind, but it is difficult to handle it as efficiently with new employees as with those who have had the necessary training and experience, as no matter how well qualified a new employee is, it takes him some time to become thoroughly conversant with the work.

The situation was aggravated by the collapse of Superintendent Lewis on June 15 from a severe heart attack due to overwork and strain, so that since that time the writer has been filling the positions of Acting Superintendent, Assistant Superintendent and Chief Clerk. Superintendent Lewis has been forced to take a long vacation to recuperate and does not expect to be able to return until fall.

120 - Park Inspections By

121 - Superintendent

A trip was made to Tuolumne Meadows to lay out the service station

for the Standard Oil Company and to make plans with the Yosemite Park & Curry Company for improvements that they desire to make at that point. A trip was made to Hetch Hetchy to select a ranger station headquarters for the government and a refreshment stand operation for the Yosemite Park & Curry Company. Other inspections trips were made to the Mariposa Grove of Big Trees and on the floor of Yosemite Valley as well as an inspection of the new highway between Mariposa and El Portal.

#### 123 - National Park Service Officers

Mr. Dan R. Hull, Landscape Engineer, from Los Angeles was in the park two or three days around June 15.

#### 125 - Other Governmental Officers

On June 1 Doctor Hewes, Mr. Bright, and Mr. Ball, all officials of the Bureau of Public Roads, made an inspection trip through the park in connection with the road work; and on June 15 a conference was held between Superintendent Lewis and Mr. Sweetser, Mr. Shaw, Mr. Tolen, and Mr. MacBeath in connection with the expenditures of new road money for the 1926 season.

#### 130 - Finance and Accounts

The total revenues for the month of June amounted to \$38,442.92, making the total for the year to date \$211,744.55, compared with \$144,743.82 for the same period last year, a gain of \$67,000.73 or 46%.

The new road and trail money became available in June, as well as the money for construction work in the park; and payments are being made for work carried on under both appropriations. By closely saving in every way possible, we managed to get through by June 30 within the money that was made available, necessary curtailments of operation being made at every point.

#### 140 - Labor Situation

The labor situation in the park was satisfactory, there being a sufficient number of employees for the work at the present time.

#### 170 - Plans, Maps and Surveys

The resident engineer spent the month in surveying, mapping, drafting and general supervision of all carpentry, plumbing, painting, sanitation and

and garbage disposal.

The engineering draftsman spent the month in the drafting of maps, plotting up notes on road construction in the Mariposa Grove of Big Trees, making various tracings and blue prints, lettering special signs, and keeping costs on the comfort stations at Chinquapin.

#### 200 - Maintenance, Improvement and New Construction

##### 210 - Maintenance

The usual maintenance and repair of roads, trails, bridges, culverts, and buildings, and the operation of our various utilities was carried on during the month in the usual manner. The Tioga Road was opened on June 5 and was put in good repair by the middle of the month.

##### 230 - New Construction

The two comfort stations at Chinquapin were completed during the month except for the setting of fixtures, which will take about three days. Work is to be started shortly on the new El Portal Gateway and ranger station at Arch Rock.

The Dennis Construction Company started laying concrete from the park line and by the end of the month had almost reached the Arch Rock Ranger Station. Progress has been much slower than expected. It was necessary to reject the first day's pouring and insist that the company secure a competent crew of concrete handlers. The delay in this work has been very annoying and places us in a very embarrassing position with the new El Portal Highway opening on July 31. It will be necessary to handle cars over this road where paving work is going on under controls, as half of the road is paved at a time. This makes a one-way strip for travel.

##### 240 - Improvement of Approaches to the Park

The State Highway Commission has concentrated their efforts on their section of the Mariposa-El Portal Road and except for the bridges to be put in, which will not be completed until fall, the road will be ready for opening on July 31, except for some cleaning up work and surfacing.

#### 300 - Activities of Other Agencies in the Park

##### 310 - Public Service Contractors

Messrs J. T. Boysen, H. C. Best and D. J. Foley completed the tearing

down of their old studios in the Old Village and have practically completed the new construction in the New Village, except in the case of Mr. Foley.

The Yosemite Park & Curry Company have continued to give the same usual service this season in the way of camp, lodge, store and transportation service, etc. that they have given in the past.

#### 317 - Status of Authorized Projects of Contractors

The Dennis Construction Company is far behind their estimated schedule in the work they have contracted to do and have expended approximately \$310,000 of the \$534,250 that has been allotted to them.

#### 330 - Cooperating Non-Governmental Agencies

The American Association of Museums has given freely of assistance in the employment of special help in connection with the installation of exhibits in the New Museum. Mr. Herbert Maier, the Executive Agent, was called away about the end of the month to take charge of work in some of the other National Parks where museums are to be erected.

#### 350 - Donations and Accessions of All Kinds

The usual number of interesting exhibits were received at the park museum during the month, chief among which was a collection of eleven original drawings made in Yosemite in 1855 by the artist Thomas Ayres. These pictures were procured by Admiral Alden sometime prior to 1860 and have been cared for by his family since then. They were presented to the Yosemite Museum by Mrs. Ernest W. Bowditch, Mrs. C. W. Hubbard, and Mrs. A. H. Eustis, descendants of Admiral Alden.

#### 400 - Flora, Fauna, and Natural Phenomena

Tree specimens were installed in the Tree Room so far as material became available, and the room was opened to visitors.

Mr. E. O. Essig, entomologist from the University of California, employed with funds provided by the American Association of Museums, has made a collection and exhibition of the common Yosemite insects.

Ten species of living reptiles and amphibians have been exhibited in the live cases on the back porch.

The new metal flower case is proving to be highly satisfactory, the park botanist keeping it fully supplied with specimens.

#### 420 - Museum Service

The Museum, from the date of its opening, has been besieged by hordes of visitors throughout the month. No satisfactory method of accurately counting visitors has been devised, but from observations made by attendants in charge, an estimate of 2,000 visitors daily seems to be reasonable.

Mr. John D. Rockefeller and family made two visits to the Museum during the short period they were in the park and showed more than ordinary interest in the park and expressed satisfaction with what had been done.

#### 440 - Insect Control

The mosquito control work was carried on during the month both in Yosemite Valley and at Tuolumne Meadows with general satisfactory results.

#### 500 - Use of Park Facilities by the Public

##### 510 - Travel to the Park

During the month of June, there was a total of 54,311 visitors to the park, making the total travel for the year to date 86,231 compared with 71,585 visitors for the same period last year, a gain of 14,652 or 21%. Automobile travel has made a substantial gain, but train travel has fallen off noticeably, there being only 4,709 visitors in June via the Yosemite Valley Railroad compared with 7,028 last year.

##### 520 - General Weather Conditions

In June, 1926 the weather was considerably warmer than in June, 1925, the mean maximum being 87.63 compared with 78.30, with a mean minimum of 49.50 compared with 47.13. The maximum temperature for the month was 99° compared with 95° for last year, and the minimum 42° compared with 33°. The greatest daily range was from 92° maximum to 45° minimum, a difference of 49°. There was .60 inches of rainfall during the month, mostly from thunder showers. This

brings the total rainfall to date to 28.30 inches compared with 39.43 of last year. The forests are already extremely dry and the forest fire hazard is serious this year. Already California has experienced serious fires in practically all sections of the state. Yosemite has had two serious fires caused by lightning, one the latter part of May and one early in June, but we were fortunate in having no other fires of any size during the month. A number of small fires were started by lightning, but were extinguished by park rangers without difficulty. A copy of Form 1009, U. S. Department of Agriculture Weather Bureau Record, is enclosed.

#### 540 - Visitors

Mr. John D. Rockefeller, Jr., accompanied by Mrs. Rockefeller and his three sons, together with their tutor, visited the park on June 24 and 25 and enjoyed their visit here very much and congratulated the administration on the efficient manner in which the park seemed to be handled.

On June 22 Governor W. J. Fields of Kentucky, accompanied by Mrs. Fields and their daughter, arrived from the Sequoia National Park in Director Mather's car with Walter Morris, who was driving. Governor Fields and party were taken to Glacier Point in the Lincoln car while Director Mather's Packard was having the brakes relined preparatory to the trip to Yellowstone National Park. Governor Fields was also given a horseback trip. He expressed himself as very much pleased with his outing in the park.

Mr. David Whitcomb of the Rainier National Park Company with his wife and son arrived in the park on June 17 and departed on June 18. I had the pleasure of greeting Mr. Whitcomb, but he was so very well taken care of by the Yosemite Park & Curry Company officials that there was nothing that the Park Service could do to add to the pleasure of his visit.

#### 600 - Protection

##### 610 - Police Protection

On June 17 J. H. Gibson was arrested by Ranger Freeland for speeding on curves. He was fined \$10 by the U. S. Commissioner.

The same date, H. L. Haley was arrested for driving too fast on curves and exceeding the speed limit of 30 miles an hour on straight stretches. He was fined \$10 by the U. S. Commissioner.

On June 20 Emmet Duanne was arrested by Ranger Rich and charged with driving in excess of 30 miles an hour. He was fined \$5.

On June 21 Edward Ledderman was arrested by Ranger Rich and charged with driving in excess of 30 miles an hour on the El Capitan Road. He was fined \$10.

On June 25 Ranger Wegner arrested D. D. McConnell for excessive speeding and he was fined \$10 by the U. S. Commissioner.

Lon R. Cunningham, on June 28, was arrested by Ranger Danner for fast driving on the Curry Road and was fined \$5.

On the same date George Steekr was arrested by Ranger Danner for fast driving and was fined \$5.

Ranger Hayes arrested Ed Choney for leaving a camp fire burning, for which he was fined \$5.

On June 22 George W. Sanders of Santa Monica, California was arrested by Ranger Freeland, charged with being drunk and disorderly, and transporting liquor. He plead guilty and was fined \$15 on the first charge and \$25 for transporting the liquor, and also ordered to pay Doctor Church for medical and ambulance fees to cover the necessary medical attention given him.

On June 22 Lloyd L. Lowell was arrested by Ranger Rich and Ranger Jones, charged with having unsealed firearms in his possession and with transporting liquor into the park. He plead guilty to having unsealed firearms, for which he was fined \$25 each for the two firearms which he had, and which were confiscated by the U. S. Commissioner; but plead not guilty to transporting liquor.

On June 30 William L. Armstrong of Calistoga, California was arrested by Rangers Jones and Rich, charged with disorderly conduct, and was fined \$10.

On June 30 Gene Ouslidge of Petuluma, California was arrested by Rangers Rich and Jones on a charge of disorderly conduct, to which he plead guilty. He was fined \$5.

On June 24 James F. Davidson, alias Mack Roberts, was arrested by Ranger Lloyd at Yosemite Lodge and charged with having robbed a post office in Arkansas. Ranger Lloyd made the arrest after Roberts had been identified by a postal clerk at the Lodge. Davidson had absconded with money order blanks from the post office in Arkansas at which he was formerly postmaster, and left a trail of forged money orders, which he cashed as he sped across the country. He had a large number of forged money orders on him when arrested.

On June 8 W. E. Geberls was arrested by Ranger Rich for illegal parking of his car and was fined \$10.

In addition there were many other cases of minor infractions of the law that were handled either by park rangers or the U. S. Commissioner, for which the penalty was a reprimand and the marking of their automobile permit so that in case of a second offense more drastic action might be taken.

Former U. S. Commissioner H. H. Hoss resigned during the month of June and his place was taken by Judge William D. Fullerton.

#### 900 - Miscellaneous

##### Medical Service

During the month of June, Dr. Claude H. Church handled 441 cases, answering 774 office calls and 160 house calls, a total of 934 calls for the month. There were five minor operations, 15 accidents reported, 14 hospital cases for a total of 53 hospital days, one birth, and one death.

##### Yosemite Lumber Company

The following is the report covering the logging operations of the Yosemite Lumber Company during the month of June, 1926:

During this period, the company employed an average of 170 men at their Camp #15. They operated 4 donkey engines hauling to 3 landings and 3 caterpillar tractors hauling to one landing. They cut and shipped to their mill 5,037,500 feet b.m. of logs. They cut over about 92 acres of land, all of which are within the boundaries of the Stanislaus National Forest, located in the S<sup>1</sup>/<sub>2</sub> Section 11 and S<sup>1</sup>/<sub>2</sub> Section 12, Twp. 2 South, Range 19 East.

At their Camp #16, they employed an average of 233 men during the month. They operated 6 donkey engines, hauling to 4 landings and 3 caterpillar tractors

hauling to one landing. They cut and shipped to their mill 5,759,800 feet b.m. of logs. They cut over about 115 acres of land. Of these amounts 3,186,800 feet b.m. were cut from about 63 acres of company land within the Yosemite National Park located in the NE<sup>1</sup>/<sub>4</sub> and SW<sup>1</sup>/<sub>4</sub> Section 24, Twp. 2 South, Range 19 East, and the balance or 2,573,000 feet b.m. were cut from about 52 acres of company land within the Stanislaus National Forest, located in the SE<sup>1</sup>/<sub>4</sub> Section 24, Twp. 2 South, Range 19 East, and in SW<sup>1</sup>/<sub>4</sub> Section 19 and NW<sup>1</sup>/<sub>4</sub> Section 30, Twp. 2 South, Range 20 East.

From their Camps 15 and 16, they cut and shipped to their mill 10,797,800 feet b.m. of logs on 1735 cars, an average of 6,225 feet b.m. per car. They cut over about 207 acres of land as follows:

63 acres of company land in Yosemite National Park  
144 " " " " " Stanislaus National Forest

To date from their Camps 15 and 16, the Company has cut and shipped to their mill 36,801,000 feet b.m. of logs on 5,957 cars, an average of 6,178 feet b.m. per car. They have cut over about 761 acres of land as follows:

240 acres of company land in Yosemite National Park  
521 " " " " " Stanislaus National Forest.

Very truly yours,

E. P. Leavitt,  
Acting Superintendent.

The Director  
National Park Service  
Washington, D.C.
