### Amended Items in Nomination:

In Section 8 of the National Register of Historic Places nomination the period of significance has been changed to better reflect current documentation of the resource. The Staff and Region of the Herbert Hoover National Historic Site have been notified of the change. The staff had not had time to adequately document the National Park Service's operation of the site, therefore the period of significance will stop in 1970. The visitor's center in Section 7 on page 6 will be stay non-contributing, as will the two maintenance buildings also mentioned in section 7 page 6 (c. 1946) as these are within the National Park Service's maintenance area that is separated from the main museum grounds and as mentioned before have not been adequately documented.

In Section 7 page 6 of the National Register of Historic Places the nomination form has been changed from non-contributing to contributing for the picnic shelter (c. 1966). This has been confirmed with the Park and the Regional office. The picnic shelter and other shelter dedicated by the Boy Scouts are both part of the same mission and conservation plan and contribute and are eligible to the National Register.

In Section 7 page 6 of the National Register of Historic Places nomination form has been changed from non-contributing to contributing for the Barn/storage shed (1952). Constructed of recycled materials from other buildings on the property and is located within the area of the museum complex. Similar to other buildings with the museum complex the Barn/storage shed contributes to the historic district and is eligible to the National Register.
