

### Record Trees

## Forest of Giants

Olympic National Park was established in 1938 in part to protect the “finest sample of primeval forests...” The area’s climate and geography nurture forests of ancient, massive trees, some up to 1,000 years old. *American Forests* documents some as champions, the largest specimens in the nation (see: [www.americanforests.org/our-programs/bigtrees](http://www.americanforests.org/our-programs/bigtrees)). Others are near record. Dates indicate latest measurement. **To protect these living museums, don’t damage the bark and avoid trampling the soil at their base.** See back for scientific names and identification.

### Alaska-cedar (2005)

Circumference	451 inches
Height	126 feet
Spread	27 feet
Total Points	582
Location:	Quinault, Big Creek trail, east of Three Lakes

### Subalpine Fir (2006)

Circumference	252 inches
Height	130 feet
Spread	26 feet
Total Points	389
Area:	About 300 ft. east/southeast of Cream Lake

### Engelmann Spruce (1998, Former champ, *Picea engelmannii*)

Circumference	265 inches
Height	156 feet
Spread	27 feet
Total Points	428
Location:	upper Cameron Creek

### Pacific Silver Fir (2011, National Champion)

Circumference	216 inches
Height	220 feet
Spread	38 feet
Total Points	446
Location:	Bogachiel Valley (east of Hades Ck.)

### Western Redcedar (1999, National Champion)

Circumference	761 inches
Height	159 feet
Spread	45 feet
Total Points	931
Location:	Quinault Big Cedar Trail, 2 miles up North Shore Rd.

### Sitka Spruce (2007, National Champion)

Circumference	668 inches
Height	191 feet
Spread	96 feet
Total Points	883
Location:	Quinault (Olympic Natl. Forest)

### Grand Fir (Largest in park)

Circumference	229 inches
Height	246 feet
Spread	43 feet
Total Points	486
Location:	Southeast side Duckabush Trail, 1.5 miles inside park, 100 yards past second park stream crossing.

### Douglas-fir (coastal subspecies) (1999, Former champion)

Circumference	600 inches
Height	200 feet
Spread	71 feet
Total Points	809
Location:	2.5 miles up Queets Trail then 0.2 miles up side trail to left at Coal Creek

### Douglas-fir (coastal subspecies) (1999, Co-Champion)

Circumference	505 inches
Height	281 feet
Spread	71 feet
Total Points	804
Location:	Quinault (Olympic Natl. Forest)

### Mountain Hemlock (1993, former champ)

Circumference	234 inches
Height	152 feet
Spread	41 feet
Total Points	396
Location:	East Fork Quinault, O’Neil Pass Trail

### Western Hemlock (2007, National Champion)

Circumference	273 inches
Height	237 feet
Spread	67 feet
Total Points	527
Location:	Olympic National Park (Note other former champs are also in Olympic National Park in the Quinault Valley!)
