

Rehabilitate Floyd Bennett Field Wastewater Collection System

GATE- 291651

Rehabilitate Floyd Bennett Field Wastewater Collection System at Jamaica Bay

- Brief Description

Rehabilitate Floyd Bennett Field (FBF) sanitary sewer system at the Jamaica Bay unit of Gateway National Recreation Area. Includes elimination of two lift stations and replacement or new construction of several other lift stations. The active portions of the wastewater collection systems (piping, manholes, lift stations) are beyond their expected lifecycle, and need to be replaced.

- Location

Gateway National Recreation Area, New York

- Estimated Price

Between \$5M & \$10M.

Rehabilitate Floyd Bennett Field Wastewater Collection System

- Design & Construction Method:
Design / Build
