

December 2018 Update

Unigrids Available on Request!

The [Climate Change in National Parks unigrid](#) [PDF] provides an introduction to the effects on, impacts of, and responses to climate change in our national parks. A new supply of the popular brochure is expected to be available in January, and requests for copies are currently being taken. Parks interested in receiving a supply can contact climate_change@nps.gov for more information.

Research Program

Fourth National Climate Assessment

What do YOU want to know?

Last month, the U.S. Global Change Research Program released [the second volume of the Fourth National Climate Assessment \(NCA4\)](#) . The second volume details impacts and risks associated with climate change, as well as response strategies.

The report includes topical chapters examining implications for everything from air quality to water. Additionally, report chapters provide summary findings for 10 discrete regions across the United States.

Both the full report and individual chapters can be [downloaded here](#).
