

## ACKNOWLEDGMENTS

This report was a collaborative effort of the staff at the Olmsted Center for Landscape Preservation and the Eisenhower National Historic Site. At the Olmsted Center, Tracy Stakely was involved in the early phases of the project prior to his move to the Regional Office in Atlanta. Margie Coffin Brown took over as project lead and was assisted by Jeffrey Killion in the development of treatment recommendations and plans. Bob Page, Director of the Olmsted Center, provided overall guidance and reviewed this report.

Carol Hegeman at Eisenhower NHS provided guidance and comments regarding drafts, and supplied additional information on a regular basis. Kathleen Harrison and Winona Peterson's combined research with Carol Hegeman for the final National Register nomination also aided in the treatment recommendations for this document. Jim Johnson, Carol Hegeman, Winona Peterson, Bob Staley, and Zach Bolitho participated in a Treatment Charette held at the park in September 2005. John Latschar, Jim Johnson, and John McKenna provided overall project guidance.
