

①
N = 38
M = 135°
S = 40

②
N = 104
M = 102°
S = 28

③
N = 105
M = 67°
S = 33

④
N = 19
M = 82°
S = 23

EXPLANATION

↗
15
↘
3

Direction (arrow) or trend (line) of paleocurrent movement obtained by averaging all measurements taken within the township section near which it is plotted. Numbers indicate the number of measurements that each symbol represents

N
M
S

Composite of direction measurements taken mainly along the shoreline in townships indicated. *N*, number of measurements; *M*, mean direction; *S*, standard deviation. Measurements at west end of Siskiwit Bay not included
