National Park Service
1940
FOREWORD

The following references to the literature of Glacier National Park represent a selection gathered by workers on a research project sponsored by the National Park Service in collaboration with the Work Projects Administration. These pages will form part of a larger volume which will include other national parks and monuments in the West.

The references include material published through 1936, although there are some items of more recent date. Fiction, poetry, and maps have been excluded.

Among those to whom the National Park Service is indebted for cooperation in preparing this bibliography are the University of California libraries at Berkeley, and the Berkeley Public Library.

Alden, William C.

Bevan, Arthur.

Bowman, Isaiah.

Burling, Lancaster D.

Calhoun, Fred H. H.
1906 The Montana lobe of the Keewatin ice sheet. U.S. Geol. Surv., Prof. pap. 50, 62 pp., illus., maps, index. Washington, Govt. print. off.

Campbell, Marius R.
1914 The Glacier National Park; a popular guide to its geology and scenery. U.S. Geol. Surv., Bul. 600, 54 pp., illus., maps. Washington, Govt. print. off.

Contains many excellent photographs of park scenery.
NORTHWEST INLAND

Chamberlin, Rollin T.

Includes description of the Lewis overthrust in the park.

Chaney, Lucian W., jr.

Culver, G. E.

Dyson, James L.

1935 A few summer geological findings [in Many Glacier Valley]. Glacial drift, 8:41-42 (Oct.).

1936 Features of Blackfeet Glacier. Glacial drift, 9:19 (July), illus.

Elrod, Morton J.

1908 Pictured rocks, Indian writings on the rock cliffs of Flathead Lake, Montana. Univ. Mont., Bul. 46 (Biol. ser. 14), 10 pp., illus., map.

Fenneman, Nevin M.

Fenton, Carroll L.

GLACIER NATIONAL PARK

Geology

Fenton, Carroll L.
Geological history of Glacier National Park region.

Geological studies indicate park was once under sea water.

Fenton, Carroll L., and Fenton, Mildred A.

Fuller, Margaret B.
Technical description of a formation found below Swiftcurrent Falls in Glacier National Park.

Knowlton, Frank H.
Includes description of fossil flora of Belly River area.

Lee, Willis T.

Martin, Lawrence.

Matthes, Francois E.
Structure, topography, drainage, glaciers, glacial effects in the valleys, mountain peaks, lakes, and scenery are noted.

Abstract of paper describing a range now in Glacier Park.
Ruhle, G. C.  

Russell, Israel C.  

Salisbury, Rollin D.  
One of the four areas studied was the region of the park.

Stebinger, Eugene  
Includes material on a part of the eastern side of the park.

Vinal, William G.  
1932 The stone alphabet of the Rockies. Glacial drift, 5:57-61 (Nov.-Dec.).  
Geological history read in the rocks of Glacier Park.

Willis, Bailey.  
1901 Oil of the northern Rocky Mountains. Engineer and min. jour., 72:782-84 (Dec. 14), illus., map.  
These ranges extend through Glacier National Park.
