Recent actions of the 111th Congress

On March 30, 2009, while this book was in production, the Omnibus Public Land Management Act of 2009 was signed into law. Among its provisions, PL 111-11 authorized nine National Heritage Areas, two waterways within the National Wild and Scenic Rivers System, and four new trails within the National Trails System. New areas are listed below. Changes to existing site names are reflected within this book.

**Additional National Heritage Areas**
- Muscle Shoals National Heritage Area, Alabama
- Kenai Mountains-Turnagain Arm National Heritage Area, Alaska
- Sangre de Cristo National Heritage Area, Colorado
- South Park National Heritage Area, Colorado
- Baltimore National Heritage Area, Maryland
- Freedom’s Way National Heritage Area, Massachusetts, New Hampshire
- Mississippi Delta National Heritage Area, Mississippi
- Northern Plains National Heritage Area, North Dakota
- Mississippi Hills National Heritage Area, Mississippi

**Additional National Wild and Scenic Rivers**
- Taunton River, Massachusetts
- Snake River Headwaters, Wyoming

**Additional National Trails**
- Arizona National Scenic Trail
- New England National Scenic Trail
- Pacific Northwest National Scenic Trail
- Washington-Rochambeau Revolutionary Route National Historic Trail

Introduction

Grand Canyon National Park
On August 25, 1916, President Woodrow Wilson signed the act creating the National Park Service, a new federal bureau in the Department of the Interior responsible for protecting the 35 national parks and monuments then managed by the department and those yet to be established. This “Organic Act” states that “the Service thus established shall promote and regulate the use of the Federal areas known as national parks, monuments and reservations . . . by such means and measures as conform to the fundamental purpose of the said parks, monuments and reservations, which purpose is to conserve the scenery and the natural and historic objects and the wild life therein and to provide for the enjoyment of the same in such manner and by such means as will leave them unimpaired for the enjoyment of future generations.”

The National Park Service strives to meet those original goals, while filling other roles as well: guardian of our diverse cultural and recreational resources; environmental advocate; world leader in the parks and preservation community; and pioneer in the drive to protect America’s open space.

The National Park System comprises 391 areas covering over 84 million acres in 49 States, the District of Columbia, American Samoa, Guam, Puerto Rico, Saipan, and the Virgin Islands. These areas are of such national significance as to justify special recognition and protection in accordance with various acts of Congress.

By the Act of March 1, 1872, Congress established Yellowstone National Park in the Territories of Montana and Wyoming “as a public park or pleasuring-ground for the benefit and enjoyment of the people” and placed it “under exclusive control of the Secretary of the Interior.” The founding of Yellowstone National Park began a worldwide national park movement. Today over 100 nations contain some 100,000 national parks or equivalent preserves.

In the years following the establishment of Yellowstone, the United States authorized additional national parks and monuments, most of them carved from the federal lands of the West. These, also, were administered by the Department of the Interior, while other monuments and natural and historical areas were administered as separate units by the War Department and the Forest Service of the Department of Agriculture. No single
agency provided unified management of the varied federal parklands.

An Executive Order in 1933 transferred 56 national monuments and military sites from the Forest Service and the War Department to the National Park Service. This action was a major step in the development of today’s truly national system of parks—a system that includes areas of historical, scenic, and scientific importance.

Congress declared in the General Authorities Act of 1970 “that the National Park System, which began with the establishment of Yellowstone National Park in 1872, has since grown to include superlative natural, historic, and recreation areas in every region . . . and that it is the purpose of this Act to include all such areas in the System . . .”

Additions to the National Park System are now generally made through acts of Congress, and national parks can be created only through such acts. But the president has authority, under the Antiquities Act of 1906, to proclaim national monuments on lands already under federal jurisdiction. The Secretary of the Interior is usually asked by Congress for recommendations on proposed additions to the System. The Secretary is counseled by the National Park System Advisory Board, composed of private citizens, which advises on possible additions to the System and policies for its management.

Nomenclature of Park System Areas
The diversity of the parks is reflected in the variety of titles given to them. These include such designations as national park, national preserve, national monument, national memorial, national historic site, national seashore, and national battlefield park.

Although some titles are self-explanatory, others have been used in many different ways. For example, the title “national monument” has been given to natural reservations, historic military fortifications, prehistoric ruins, fossil sites, and to the Statue of Liberty.

In recent years, both Congress and the National Park Service have attempted to simplify the nomenclature and to establish basic criteria for use of the different official titles. Brief definitions of the most common titles follow.

Areas added to the National Park System for their natural values are expanses or features of land or water of great scenic and scientific quality and are usually designated as national parks, monuments, preserves, seashores, lakeshores, or riverways. Such areas contain one or more distinctive attributes like forest, grassland, tundra, desert, estuary, or river systems; they may contain windows on the past for a view of geological history; they may contain imposing landforms like mountains, mesas, thermal areas, and caverns; and they may be habitats of abundant or rare wildlife and plantlife.

Generally, a national park contains a variety of resources and encompasses large land or water areas to help provide adequate protection of the resources.

A national monument is intended to preserve at least one nationally significant resource. It is usually smaller than a national park and lacks its diversity of attractions.

In 1974, Big Cypress and Big Thicket were authorized as the first national preserves. This category is established primarily for the protection of certain resources. Activities like hunting and fishing or the extraction of minerals and fuels may be permitted if they do not jeopardize the natural values. National reserves are similar to the preserves. Management may be transferred to local or state authorities. The first reserve, City of Rocks, was established in 1988.

Preserving shoreline areas and off-shore islands, the national lakeshores and national seashores focus on the preservation of natural values while at the same time providing water-oriented recreation. Although national lakeshores can be established on any natural freshwater lake, the existing four are all located on the Great Lakes. The national seashores are on the Atlantic, Gulf, and Pacific coasts.

National rivers and wild and scenic riverways preserve ribbons of land bordering free-flowing streams which have not been dammed, channelized, or otherwise altered. Besides preserving rivers in their natural state, these areas provide opportunities for outdoor activities like hiking, canoeing, and hunting.

National scenic trails are generally long-distance footpaths winding through areas of natural beauty.

Although best known for its great scenic parks, over half the areas of the National Park System preserve places and commemorate
persons, events, and activities important in the nation’s history. These range from archeological sites associated with prehistoric Indian civilizations to sites related to the lives of modern Americans. Historical areas are customarily preserved or restored to reflect their appearance during the period of their greatest historical significance.

In recent years, national historic site has been the title most commonly applied by Congress in authorizing the addition of such areas to the National Park System. A wide variety of titles—national military park, national battlefield park, national battlefield site, and national battlefield—has been used for areas associated with American military history. But other areas like national monuments and national historical parks may include features associated with military history. National historical parks are commonly areas of greater physical extent and complexity than national historic sites. The lone international historic site refers to a site relevant to both U.S. and Canadian history.

The title national memorial is most often used for areas that are primarily commemorative. They need not be sites or structures historically associated with their subjects. For example, the home of Abraham Lincoln in Springfield, Ill., is a national historic site, but the Lincoln Memorial in the District of Columbia is a national memorial.

Several areas whose titles do not include the words “national memorial” are nevertheless classified as memorials. These are Franklin Delano Roosevelt Memorial, Korean War Veterans Memorial, Lincoln Memorial, Lyndon Baines Johnson Memorial Grove, Theodore Roosevelt Island, Thomas Jefferson Memorial, Vietnam Veterans Memorial, Washington Monument, and World War II Memorial in the District of Columbia; Jefferson National Expansion Memorial in Missouri; Perry’s Victory in Ohio; and Arlington House in Virginia.

Originally, national recreation areas in the park system were units surrounding reservoirs impounded by dams built by other federal agencies. The National Park Service manages many of these areas under cooperative agreements. The concept of recreational areas has grown to encompass other lands and waters set aside for recreational use by acts of Congress and now includes major areas in urban centers. There are also national recreation areas outside the National Park System that are administered by the Forest Service, U.S. Department of Agriculture.

National parkways encompass ribbons of land flanking roadways and offer an opportunity for driving through areas of scenic interest. They are not designed for high speed travel. Besides the four areas set aside as parkways, other units of the National Park System include parkways within their boundaries.

One area of the National Park System has been set aside primarily as a site for the performing arts. This is Wolf Trap National Park for the Performing Arts, Virginia, America’s first such national park. Two historical areas, Ford’s Theatre National Historic Site, in Washington, D.C., and Chamizal National Memorial, Texas, also provide facilities for the performing arts.

Designation of Wilderness Areas
In the Wilderness Act of 1964 Congress directed certain federal agencies, including the National Park Service, to study lands they administer for their suitability for inclusion in the National Wilderness Preservation System. Congress has now designated wilderness areas in 47 units of the National Park System. Wilderness designation does not remove these lands from the parks but ensures they are managed to retain their “primeval character and influence, without permanent improvements or human habitation.” There are also 38 wilderness study areas under National Park Service management. Of these areas, 19 were formally transmitted for Congressional action over the last 35 years.

The Act provides that “there shall be no commercial enterprise and no permanent road within any wilderness area . . . and (except for emergency uses) no temporary road, no use of motor vehicles, motorized equipment or motor boats, no landing of aircraft, no other form of mechanical transport, and no structure or installation.” Wilderness areas are open to hiking and, in some cases, horseback riding, primitive camping, and other nonmechanical recreation. The Wilderness Act recognizes that wilderness “may also contain ecological, geological, or other features of scientific, educational, scenic, or historical value.” Wilderness embodies spiritual, artistic, therapeutic, cultural, and other important values.
Wilderness holds exciting prospects for future management of National Park Service lands. Because wilderness exists on lands of the National Park System, National Forest System, National Wildlife Refuge System, and Bureau of Land Management, it offers a common statutory basis for interagency cooperation in ecosystem management. Only the Wilderness Act mandates preservation of natural processes, making wilderness areas ideal protected core areas for ecosystems, just as national parks often provide core protection for biosphere reserves and world heritage sites. As such, wilderness areas provide important benchmark areas for scientific research and monitoring.

Growing demand for wilderness experience makes sophisticated, sensitive wilderness management essential. The National Park Service believes that wilderness management is the highest form of stewardship it can provide for the public lands in its care.

**Parks in the Nation’s Capital**
Washington, D.C., has a unique park system. Most public parks are administered by the federal government through the National Capital Region of the National Park Service.

National Capital Region has inherited duties originally assigned to three Federal Commissioners appointed by President George Washington in 1790. The city’s parks were administered by a variety of federal agencies until this responsibility was assigned to the National Park Service under the Reorganization Act of 1933. Most city parklands are included in the federal holdings, although the District of Columbia also operates parks, playgrounds, and recreational facilities. National Capital Region also administers National Park System units in Maryland, Virginia, and West Virginia.

**Related Areas**
Besides the National Park System, four area designations—Affiliated Areas, National Heritage Areas, the National Wild and Scenic Rivers System, and National Trails System—are linked in importance and purpose to areas managed by the National Park Service. These areas are not all units of the National Park System, yet they preserve important segments of the nation’s heritage. They are listed in Part 3 of this book.

Wright Brothers National Memorial
Alabama

Horseshoe Bend National Military Park
11288 Horseshoe Bend Road
Daviston, AL 36256
256-234-7111

On March 27, 1814, at the “horseshoe bend” on the Tallapoosa River, Gen. Andrew Jackson’s forces broke the power of the Upper Creek Indian Confederacy and opened large parts of Alabama and Georgia to settlement. Authorized July 25, 1956. Acreage—2,040, all federal.

Little River Canyon National Preserve
2141 Gault Avenue North
Fort Payne, AL 35967-3673
256-845-9605

The preserve protects the natural, recreational, and cultural resources of the Little River Canyon of northeast Alabama. A variety of rock expanses, benches, and bluffs creates a unique environment for several threatened and endangered species and for recreational pursuits, including kayaking and rock climbing. Hunting, fishing, and trapping are permitted. Authorized Oct. 24, 1992. Acreage—13,632.96 Federal: 10,338.15 Nonfederal: 3,294.81

c/o Tuskegee Institute National Historic Site
P.O. Drawer 10
Tuskegee Institute, AL 36087-0010
334-724-0922

This site preserves the airfield, historic hangar, and other buildings at Moton Field, where African American pilots known as the Tuskegee Airmen received their initial flight training during World War II. Acreage—89.69 Federal: 44.71 Nonfederal: 44.98.

Tuskegee Institute National Historic Site
PO Drawer 10
Tuskegee Institute, AL 36087-0010
334-727-3200

Booker T. Washington founded this college for African Americans in 1881. Preserved here are the brick buildings the students constructed themselves, Washington’s home, and the George Washington Carver Museum, which serves as the visitor center. The college is still an active institution that owns most of the property within the national historic site. Authorized Oct. 26, 1974. Acreage—57.92 Federal: 8.92 Nonfederal: 49.
Alaska

**Alagnak Wild River**  
Katmai National Park and Preserve, PO Box 7  
King Salmon, AK 99613-0007  
907-246-3305  

The Alagnak River flows from Kukaklek Lake in Katmai National Preserve and offers 69 miles of outstanding whitewater floating. The river is also noted for abundant wildlife and sport fishing for five species of salmon.  
*Acresage—30,655.45 Federal: 26,806 Nonfederal: 3,859.45.*

**Aniakchak National Monument and Aniakchak National Preserve**  
PO Box 7  
King Salmon, AK 99613-0007  
907-246-3305  

The Aniakchak Caldera, covering some 30 square miles, is one of the great dry calderas in the world. Located in the volcanically active Aleutian Mountains, the Aniakchak last erupted in 1931. The crater includes lava flows, cinder cones, and explosion pits, as well as Surprise Lake, source of the Aniakchak River, which cascades through a 1,500-foot gash in the crater wall. NO FEDERAL FACILITIES.  

**Bering Land Bridge National Preserve**  
PO Box 220  
Nome, AK 99762-0220  
907-443-2522  

Located on the Seward Peninsula, the preserve is a remnant of the land bridge that once connected Asia with North America over 13,000 years ago. Paleontological and archeological resources abound; large populations of migratory birds nest here. Ash explosion craters and lava flows, rare in the Arctic, are present. LIMITED FEDERAL FACILITIES.  
*Acresage—2,697,393.11 Federal: 2,537,672 Nonfederal: 159,721.11.*

**Cape Krusenstern National Monument**  
PO Box 1029  
Kotzebue, AK 99752-0029  
907-442-3890  

Archeological sites located along a succession of 114 lateral beach ridges illustrate Eskimo communities of every known cultural period in Alaska, dating back some 4,000 years. LIMITED FEDERAL FACILITIES.  

**Denali National Park and Denali National Preserve**  
PO Box 9  
McKinley Park, AK 99755-0009  
907-683-2294  

The park contains North America’s highest mountain, 20,320-foot Mount McKinley. Large glaciers of the Alaska Range, caribou, Dall sheep, moose, grizzly bears, and timber wolves are highlights of this national park and preserve.  
Gates of the Arctic National Park and Gates of the Arctic National Preserve
201 First Avenue
Doyon Building
Fairbanks, AK 99701-4848
907-457-5752

Lying north of the Arctic Circle, the park and preserve include part of the Central Brooks Range, the northernmost extension of the Rocky Mountains. Often called the greatest wilderness in North America, these NPS units are characterized by jagged peaks, gentle arctic valleys, wild rivers, and many lakes. With adjacent Kobuk Valley National Park and Noatak National Preserve, they form one of the largest park areas in the world. Proclaimed Gates of the Arctic National Monument Dec. 1, 1978; established as a national park and national preserve Dec. 2, 1980. Wilderness designated Dec. 2, 1980. Designated a Biosphere Reserve (portion) 1984.

Glacier Bay National Park and Glacier Bay National Preserve
PO Box 140
Gustavus, AK 99826-0140
907-697-2232

Katmai National Park and Katmai National Preserve
PO Box 7
King Salmon, AK 99613-0007
907-246-3305

Kenai Fjords National Park
PO Box 1727
Seward, AK 99664-1727
907-224-7500

The park includes one of the four major ice caps in the U.S., the 300-square-mile Harding Icefield, and coastal fjords. Here a rich, varied rain forest is home to tens of thousands of breeding birds, and adjoining marine waters support a multitude of sea lions, sea otters, and seals. The visitor center is in Seward, 10 miles from the park. Proclaimed a national monument Dec. 1, 1978; established as a national park Dec. 2, 1980.

Klondike Gold Rush National Historical Park
PO Box 517
Skagway, AK 99840-0517
907-983-2921
(See also Washington)

Historic buildings and exhibits in Skagway and portions of Chilkoot and White Pass trails, all prominent in the 1898 gold rush, are included in the park. A visitor center and 13 other restored historic buildings are in downtown Skagway. Authorized June 30, 1976.

_Acreage—13,191.35 Federal: 2,418.93 Nonfederal: 10,772.42._

Kobuk Valley National Park
PO Box 1029
Kotzebue, AK 99752-1029
907-442-3890

Embracing the central valley of the Kobuk River, the park, located north of the Arctic Circle, includes a blend of biological, geological, and cultural resources. Here, in the northernmost extent of the boreal forest, a rich array of arctic wildlife can be found, including caribou, grizzly and black bear, wolf, and fox. LIMITED FEDERAL FACILITIES.

_Acreage—1,750,716.50 Federal: 1,669,912.98 Nonfederal: 80,803.52. Wilderness area: 190,000._

Lake Clark National Park and Lake Clark National Preserve
4230 University Drive
Suite 311
Anchorage, AK 99508-4626
907-271-3751

Located in the heart of the Chigmit mountains, the park and preserve contain great geologic diversity, including jagged peaks, granite spires, and two symmetrical active volcanoes. Over a score of glacially carved lakes rim the mountain mass. Lake Clark, over 40 miles long, is the largest lake here and also the headwaters for red salmon spawning.

Noatak National Preserve
PO Box 1029
Kotzebue, AK 99752-0129
907-442-3890

The Noatak River basin is the largest mountain-ringed river basin in the nation still virtually unaffected. The preserve includes landforms of great scientific interest, including the 65-mile-long Grand Canyon of the Noatak, a transition zone and migration route for plants and animals between subarctic and arctic environments. It also has an array of flora among the most diverse anywhere in the Earth’s northern latitudes. LIMITED FEDERAL FACILITIES.

_Acreage—6,569,904.39 Federal: 6,276,089.98 Nonfederal: 293,814.41. Wilderness area: 5,800,000._

Sitka National Historical Park
106 Metlakatla Street
Sitka, AK 99835-7665
907-747-6281

The site of the 1804 fort and battle that marked the last major Tlingit Indian resistance to Russian colonization is preserved here. Tlingit totem poles and crafts are exhibited. The Russian Bishop’s House, built in 1842, is the oldest intact piece of Russian-American architecture.

_Acreage—112.16 Federal: 111.50 Nonfederal: 0.66._
Wrangell-St. Elias National Park and Wrangell-St. Elias National Preserve
PO Box 439
Copper Center, AK 99573
907-822-5234

The Chugach, Wrangell, and St. Elias mountain ranges converge here in what is often referred to as the “mountain kingdom of North America.” The national park is the largest unit of the National Park System. The park and preserve include the continent’s largest assemblage of glaciers and the greatest collection of peaks above 16,000 feet, including Mount St. Elias. At 18,008 feet it is the second highest peak in the U.S. Proclaimed Wrangell-St. Elias National Monument Dec. 1, 1978; established as a national park and national preserve Dec. 2, 1980. Wilderness designated Dec. 2, 1980. Designated a World Heritage Site Oct. 24, 1979.

Acreage—

Yukon-Charley Rivers National Preserve
201 First Avenue
Doyon Building
Fairbanks, AK 99701-4848
907-457-5752

Located along the Canadian border in central Alaska, the preserve protects 115 miles of the 1,800-mile Yukon River and the entire Charley River basin. Old cabins and relics are reminders of the importance of the Yukon River during the 1898 gold rush. The Charley, an 88-mile wild river, is considered by many to be the most spectacular river in Alaska.

LIMITED FEDERAL FACILITIES.

American Samoa National Park of American Samoa
Pago Pago
American Samoa 96799-0001
684-633-7082

Paleotropical rain forests, pristine coral reefs, and white sand beaches on three volcanic islands in the South Pacific are home to a variety of tropical animals, including the flying fox fruit bat. Overnights in villages are encouraged.

Acreage—9,000, all nonfederal. Water area: 2,500.

Arizona

Canyon de Chelly National Monument
PO Box 588
Chinle, AZ 86503-0588
928-674-5500

In canyon wall alcoves and at the base of sheer red cliffs are remains of American Indian villages built between 350 and 1300. Navajos live and farm here today.

Authorized Feb. 14, 1931; proclaimed April 1, 1931. Boundary change: March 1, 1933.

Acreage—83,840, all nonfederal.
This multi-storied, earthen-walled structure surrounded by the remains of smaller buildings and a compound wall was constructed by the Hohokam, who farmed the Gila Valley in the early 1200s. Casa Grande was abandoned by the mid-1400s. Authorized as Casa Grande Ruin Reservation March 2, 1889; proclaimed June 22, 1892; redesignated Aug. 3, 1918. Boundary changes: Dec. 10, 1909; June 7, 1926. 
_Acreage—472.50, all federal._

Buck Island Reef National Monument
Danish Customs House
Kings Wharf
2100 Church Street, #100
Christiansted, VI 00820-4611
340-773-1460

The park, featuring the finest coral reef gardens in the Caribbean, includes coral grottoes, sea fans, and tropical fish. Its interpretive snorkel trail provides a wonderful opportunity to discover the underwater world. The island’s beaches and tropical forests are nesting areas for brown pelicans and endangered sea turtles.
Acreage—19,015.47, all federal. Land area: 143.
Urban colonial development of the Virgin Islands is commemorated by structures from the 1700s and 1800s in the heart of the capital of the former Danish West Indies on St. Croix Island.

The park contains the only known site where members of the Columbus expedition set foot on what is now U.S. territory. It preserves upland watersheds, mangrove forests, and estuarine and marine environments. The site is marked by Fort Sale, a remaining earthworks fortification from the period of Dutch occupation.

The park covers much of the island of St. John. Features include coral reefs, quiet coves, blue-green waters, and white sandy beaches fringed by green hills. There are also early Indian sites and the remains of Danish colonial sugar plantations.

This rural historic district preserves and protects an unbroken historical record of Puget Sound exploration and settlement from the 1800s to the present. Historic farms, still under cultivation on the prairies of Whidbey Island, reveal land-use patterns unchanged since settlers claimed the land in the 1850s under the Donation Land Claim Act. The Victorian seaport community of Coupeville is also in the Reserve. This partnership park is managed by a local Trust Board. LIMITED FEDERAL FACILITIES.

Touro Synagogue National Historic Site
In the Act of August 18, 1970, the National Park System was defined in law as “any area of land and water now or hereafter administered by the Secretary of the Interior through the National Park Service for park, monument, historic, parkway, recreational or other purposes.” The same law specifically excludes “miscellaneous areas administered in connection therewith,” that is, those properties that are neither federally owned nor directly administered by the National Park Service but that the National Park Service assists.

The Affiliated Areas comprise a variety of locations in the United States and Canada that preserve significant properties outside the National Park System. Some of these have been recognized by Acts of Congress, others have been designated national historic sites by the Secretary of the Interior under authority of the Historic Sites Act of 1935. All draw on technical or financial aid from the National Park Service.

National Heritage Areas expand on traditional approaches to resource stewardship by supporting large-scale, community centered initiatives that connect local citizens to the preservation, conservation, and planning processes. Through the facilitation of a local coordinating entity, like a private non-profit corporation or a public commission, residents of a region come together to improve regional quality of life by protecting their shared cultural and natural resources.

In National Heritage Areas, businesses, governments, non-profit organizations, and private individuals collaborate to promote sustainable economic development and community revitalization projects. This cooperative approach allows National Heritage Areas to achieve both conservation and economic growth in ways that do not compromise local land use controls. Participation in projects and programs is always voluntary, with zoning and land-use decisions remaining under the jurisdiction of local governments.

National Heritage Areas are designated by Congress. Each National Heritage Area is governed by separate authorizing legislation and operates under provisions unique to its resources and desired goals. The National Park Service provides technical planning and limited financial assistance. Serving as a partner and advisor, the National Park Service leaves decision-making authority in the hands of local people and organizations.

First inaugurated in 1984, National Heritage Areas encompass 40 regions, ranging from factory towns and city neighborhoods to farmland and battlefields. As part of a living, working, evolving landscape, National Heritage Areas reflect the diverse and evolving histories and cultures of the people who call the region home. Visitors who explore these special places will learn about an innovative approach to resource protection; they will also gain insight into the physical character and cultural legacy of the United States.
Abraham Lincoln
National Heritage Area
1 Old State Capitol Plaza
Springfield, IL 62701

Here, in this 42-county region of central Illinois, are courthouses, log cabins, hotels, and homes where Lincoln argued cases and entertained neighbors and friends for over 30 years.

Champlain Valley
National Heritage Partnership
54 West Shore Road
Grand Isle, VT 05458-2005

Here are the linked navigable waterways and adjacent lands of Lake Champlain, Lake George, the Champlain Canal, and portions of the Upper Hudson River in Vermont and New York. This region, homeland of Indian people of Algonquin and Iroquois descent, played an important role in the establishment of the United States and Canada.
This area encompasses 213 municipalities and all or parts of 14 counties from Bergen to Gloucester in New Jersey. Gen. George Washington planned and led some of the most decisive military actions of the American Revolution across this landscape. Authorized Oct. 12, 2006.

Delaware and Lehigh National Heritage Corridor
2750 Hugh Moore Park Road
Easton, PA 18042-7120

This 165-mile region, rich in anthracite coal and other natural resources, is a transportation crossroads. Canals and railroads in the Delaware and Lehigh valleys transported lumber, hard coal, slate, iron, and steel from mountain to market, fueling America’s Industrial Revolution. Authorized Nov. 18, 1988.

Erie Canalway National Heritage Corridor
PO Box 219
Waterford, NY 12188

This heritage corridor commemorates and celebrates the impacts of the Erie Canal on the creation of the United States. The 524-mile canal system is an engineering marvel that knitted together New England, New York, and the West, spreading commerce and ideas. Authorized Dec. 21, 2000.

Essex National Heritage Area
221 Essex Street, Suite 41
Salem, MA 01970

The area encompasses 500 square miles of eastern Massachusetts. It includes thousands of historic sites, rivers and marshes, and miles of unspoiled coastline. The heritage area illuminates almost 400 years of our nation’s history. Authorized Nov. 12, 1996.

Freedom’s Frontier National Heritage Area
PO Box 526
Lawrence, KS 66044-0526

This area encompasses counties in eastern Kansas and western Missouri. Along this border, before and during the Civil War, a conflict took place between the forces of slavery and freedom. As abolitionists and others fought to keep Kansas a free state and pro-slavery forces gathered in Missouri, the Eastern press began calling the region “Bleeding Kansas.” Authorized Oct. 12, 2006.

Great Basin National Heritage Route
PO Box 78
Baker, NV 89311-0078

The heritage route incorporates the classic landscape of White Pine County, Nev., Duckwater Shoshone Reservation, Nev., and Millard County, Utah. National Heritage Area
PO Box 493
Salisbury, CT 06068-0493

This region in northwestern Connecticut and western Massachusetts is noted for its picturesque landscape, the meandering Housatonic River, and traditional New England towns. The area’s early history was marked by the American Revolution, early industrialization, and deforestation followed by a long history of reclamation and conservation. Authorized October 12, 2006.

Wheeling
National Heritage Area
1400 Main Street
Wheeling, WV 26003

The area commemorates the 1849 suspension bridge that extended the National Road (U.S. Route 40) into Ohio. The bridge brought people and goods to the city and enabled eastern settlers to migrate to the western frontier. The heritage area preserves and celebrates Wheeling’s dramatic setting, resources, and history, including its role as birthplace of the state of West Virginia during the Civil War. Authorized Oct. 11, 2000.

Yuma Crossing
National Heritage Area
180 West First Street, Suite E
Yuma, AZ 85364

This heritage area celebrates the pivotal role Yuma, Ariz., played as a Colorado River crossing point in the 1800s and the city’s innovative role in water management in the 1900s. Authorized Oct. 19, 2000.
Public Law 90-542, of October 2, 1968, provides for the establishment of a system of rivers to be preserved as free-flowing streams accessible for public use and enjoyment. Components of the system, which may include only a portion of a river, are classified as wild, scenic, or recreational rivers. They are classified according to the degree of development on the river, shoreline, and adjacent lands. Thus a wild river shows little evidence of human activity, the river is free of dams, and it is generally inaccessible except by trail. A scenic river is one with relatively primitive shorelines but accessible in places by road. A recreational river has more development, is accessible, and may have been dammed or diverted in the past.

Once a river is designated a component of the National Wild and Scenic Rivers System, the objective of the managing agency is to preserve or enhance the features that qualified the river for inclusion within the system; any recreational use must be compatible with preservation. The rivers listed here are administered by the National Park Service. Those administered by the U.S. Fish and Wildlife Service are components of the National Wildlife Refuge System.

Rivers and streams that are in state-protected systems may become units of the national system if the state’s governor asks for such inclusion. The Secretary of the Interior may then designate the river, if it is appropriate, as a unit of the system. Federally managed components of the system are designated by acts of Congress. Usually Congress first authorizes a detailed study to determine the qualification of a river area for the system.

**Kern River**
Sequoia National Park
47050 Generals Highway
Three Rivers, CA 93271-9651

This river includes both the North and South forks of the Kern. The South Fork is totally free-flowing. It descends through deep gorges with large granite outcroppings and domes interspersed with open meadows. The upper 47.5 miles of the North Fork flow through Sequoia National Park and Golden Trout Wilderness.

**Kings River**
Kings Canyon National Park
47050 Generals Highway
Three Rivers, CA 93271-9651

This river includes the entire Middle and South forks, which are largely in Kings Canyon National Park. Beginning in glacial lakes above treeline, the rivers flow through deep, steep-sided canyons, over falls and cataracts, eventually becoming an outstanding whitewater rafting river in its lower reaches in Sequoia National Forest. Geology, scenery, recreation, fish, wildlife, and history are significant aspects.

**Kobuk Wild River**

**Lamprey Wild and Scenic River**
c/o National Park Service
Northeast Region
National Wild and Scenic Rivers Division
200 Chestnut Street
Philadelphia, PA 19106-2818

The Lamprey River in southeastern New Hampshire is the largest tributary of the Great Bay National Estuarine Research Reserve. The largely undisturbed river corridor supports excellent recreation opportunities and diverse wildlife. Many important historical and archeological sites have also been preserved by the lack of modern development.
Recreational opportunities combine with a wealth of natural, cultural, and historic features within the river valley. The corridor contains the site of George Washington’s famous crossing of the Delaware River. Sheer cliffs that rise 400 feet above the river are home to rare plants in this region, including prickly pear cactus. Authorized Nov. 1, 2000. Length: 67 miles.

Portions of the Maurice River and three of its main tributaries, the Manumuskin River and Menantico and Muskee creeks, were designated to protect critical habitat on the Atlantic Flyway. The river flows through southern New Jersey to the Delaware Bay. Authorized Dec. 1, 1993. Length: 35.4 miles.

Including the South Fork, this segment of the Merced flows through superlative scenery—glaciated peaks, lakes, alpine and subalpine meadows—in alternating pools and cascades. The South Fork possesses one of the few remaining pristine Sierra fisheries with self-sustaining populations of rainbow, eastern brook, and brown trout. Authorized Nov. 2, 1987. Length: 81 miles.

Mulchatna Wild River, which lies within Lake Clark National Park and Preserve, Alaska, is exceptionally scenic as it flows out of Turquoise Lake with the glacier-clad Chigmit Mountains to the east. Moose and caribou inhabit the area. Authorized Dec. 2, 1980. Length: 24 miles.

Scenic farms, secluded natural areas, villages, and hamlets make the Musconetcong River valley one of the most scenic river valleys in New Jersey. Authorized: December 22, 2006. Length: 24.2 miles.

The National Trails System Act of 1968, as amended, calls for establishing trails in both urban and rural settings for people of all ages, interests, skills, and physical abilities. The act promotes the enjoyment and appreciation of trails while encouraging greater public access. It establishes four classes of trails: national scenic trails, national historic trails, national recreation trails, and side and connecting trails.

National scenic trails are to be continuous, extended routes of outdoor recreation within protected corridors. The first two established under the National Trails System Act were the Appalachian and Pacific Crest trails. They wind through some of the nation’s most striking natural beauty. National historic trails recognize past routes of exploration, migration, and military action.

The term national recreation trail is given to an existing local or regional trail when recognized by the federal government, with the consent of any federal, state, or political entity having jurisdiction over these lands. Today over 1,050 of these trails have been designated throughout the country. They are located in 50 states, the District of Columbia, and Puerto Rico, totaling over 19,000 miles.

Side and connecting trails provide additional access to and between components of the National Trails System. To date, two have been designated.

Since 1968, 43 long-distance trails have been studied for inclusion in the system, and 26 have been designated. The National Park Service, U.S. Department of the Interior, administers 19; the Bureau of Land Management, U.S. Department of the Interior, administers one; and the National Park Service and Bureau of Land Management jointly administer two. The Forest Service, U.S. Department of Agriculture, administers four.

The National Park Service encourages all public and private agencies to develop, maintain, and protect trails. With the cooperation and support of a nationwide trails community, the vision of an interconnected, cross-country trail system will become a reality. Ala Kahakai, “trail by the sea,” connects shoreline trails associated with Polynesian settlement, illustrating how Hawaiians flourished as a civilization. Events commemorated along the trail include Captain Cook’s historic landing, the rise of Kamehameha I, and changes leading to Hawaii’s unique blend of cultures. The trail runs along beaches, passes ancient sites, and goes through natural, urban, and wilderness areas. Established Jan. 24, 2000. Length: 175 miles.

Appalachian National Scenic Trail
National Park Service
PO Box 50
Harpers Ferry, WV 25425

For public inquiries:
Appalachian Trail Conservancy
PO Box 807
Harpers Ferry, WV 25425

About 2,150 miles of this scenic trail follow the Appalachian Mountains from Katahdin, Maine, through New Hampshire, Vermont, Massachusetts, Connecticut, New York, New Jersey, Pennsylvania, Maryland, West Virginia, Virginia, Tennessee, and North Carolina, to Springer Mountain, Ga. The trail is one of the two initial components of the National Trails System. It is also a unit of the National Park System. Established Oct. 2, 1968. Length: 2,175 miles.

California National Historic Trail
National Park Service
324 South State St., Suite 200
Salt Lake City, UT 84111

The California Trail is a system of overland routes, starting at five points along the Missouri River and ending at many locations in California and Oregon. Over these trails, from 1841 to 1869, passed one of America’s great mass migrations, seeking the promise of gold and a new life in California. Established Aug. 3, 1992. Length: 5,600 miles.

Captain John Smith Chesapeake National Historic Trail
410 Severn Avenue
Annapolis, MD 21403

This historic trail consists of water routes in the Chesapeake Bay and its tributaries. It commemorates the exploratory voyages of Captain Smith in 1607–1608 and the American Indian cultures that he encountered. It also interprets the historic and contemporary natural history of the bay, connecting dozens of gateway communities. Established: December 19, 2006. Length: 3,000 miles.

Chesapeake Bay Gateways and Watertrails Network
410 Severn Avenue
Annapolis, MD 21403

The network connects visitors with the Chesapeake Bay and its rivers through a partnership of 161 parks, wildlife refuges, museums, sailing ships, historic communities, and trails. Here people can experience the authentic Chesapeake—its spectacular natural areas, its contributions to America’s history, and its maritime heritage. The experience will hopefully inspire a commitment to conserve and restore the Chesapeake. Established: December 2, 2002. Chesapeake Bay watershed: 64,000 square miles.

Continental Divide National Scenic Trail
Forest Service, USDA
Rocky Mountain Region
740 Simms Street
Golden, CO 80225

Running the length of the Rocky Mountains near the Continental Divide, this trail extends from Canada’s Waterton Lake into Montana, along the Idaho border, and on to Wyoming, Colorado, and New Mexico, ending at the U.S.-Mexican border. Established Nov. 10, 1978. Length: 3,200 miles.
El Camino Real de los Tejas
National Historic Trail
National Park Service
National Trails System Office
PO Box 728
Santa Fe, NM 87504-0728
Established in the late 1600s as a route connecting missions across the plains of Texas, the route played key roles in securing the Spanish frontier with France, in holding Mexico’s northern frontier after independence in 1821, and as the gateway for American settlement of Texas after the Republic period. The route was known as the “Old San Antonio Road.”

El Camino Real de Tierra Adentro
National Historic Trail
National Park Service
National Trails System Office
PO Box 728
Santa Fe, NM 87504-0728
From 1598 to 1882, the 1,600-mile Camino Real de Tierra Adentro joined Mexico City and Santa Fe. It aided exploration, colonization, economic development, and subsequent cultural interactions among Spanish, Anglo, and native peoples. Only the 404 miles in the United States are designated as a National Historic Trail. Co-administered with the Bureau of Land Management.

Florida
National Scenic Trail
Forest Service, USDA
325 John Knox Road, F-100
Tallahassee, FL 32303
The trail runs north from Big Cypress National Preserve and the Kissimee Prairie through various national and state forests to Gulf Islands National Seashore. Over 800 miles have been developed for public use.
Administered by Forest Service, U.S. Dept. of Agriculture.

Ice Age
National Scenic Trail
National Park Service
700 Rayovac Drive
Suite 100
Madison, WI 53711
Winding over Wisconsin’s glacial moraines, the trail links six of the nine units of the Ice Age National Scientific Reserve. It traverses significant features of Wisconsin’s glacial heritage. About 600 miles are open to public use; additional miles are being developed.

Iditarod
National Historic Trail
Bureau of Land Management
6881 Elmore Road
Anchorage, AK 99507
One of Alaska’s preeminent Gold Rush trails, the Iditarod extends from Seward to Nome and is composed of a network of trails and side trails developed in the early 1900s. An annual dog-sled race from Anchorage to Nome brings this trail international attention.

Juan Bautista de Anza
National Historic Trail
National Park Service
1111 Jackson Street, Suite 700
Oakland, CA 94607
This trail commemorates the 1776 establishment of an overland route used by Spanish soldiers and their families as they emigrated from northern Mexico to establish a foothold on the edge of Alta California at San Francisco Bay.

Lewis and Clark
National Historic Trail
National Park Service
601 Riverfront Drive
Omaha, NE 68102
The route of the 1804–06 Lewis and Clark Expedition extends from the Mississippi River in Illinois to the Pacific Ocean at the mouth of the Columbia River in Oregon. Water routes, hiking trails, and marked highways follow the explorers’ outbound and return routes. Public and private recreational and historic sites in 11 states along the trail provide for public use and interpretation of the expedition.

Pony Express
National Historic Trail
National Park Service
324 South State St., Suite 200
Salt Lake City, UT 84111
For 18 months in 1860–61, horseback riders carried mail between St. Joseph, Mo., and Sacramento, Calif., in about 10 days, proving that a regular overland communications link to the Pacific coast was possible. Most of the 150 relay stations no longer exist.

Potomac Heritage
National Scenic Trail
National Park Service
PO Box B
Harpers Ferry, WV 25425
This trail, a unit of the National Park System, connects the tidewater regions of the Potomac River with the Allegheny Highlands in Pennsylvania. The C&O Canal towpath serves as spine of the network, with trails and routes for different kinds of travel managed by various agencies and organizations.

Santa Fe
National Historic Trail
National Park Service
National Trails System Office
PO Box 728
Santa Fe, NM 87504-0728
From 1821 the Santa Fe Trail was an international trade route between Missouri and New Mexico. After the U.S.-Mexican War (1846–1848), it continued to be used for commercial and military freighting, mail delivery, stagecoach lines, and general travel.

Selma to Montgomery
National Historic Trail
National Park Service
7002 US Highway 80
Hayneville, AL 36040-4612
This trail commemorates the 1965 voting rights march led by Dr. Martin Luther King, Jr. The marchers walked along U.S. Highway 80 from Brown Chapel A.M.E. Church in Selma, Ala., to the State Capitol in Montgomery. The march helped inspire passage of voting rights legislation signed by President Johnson on Aug. 6, 1965.
Established Nov. 12, 1996. Length: 54 miles.

Star-Spangled Banner
National Historic Trail
410 Severn Avenue
Annapolis, MD 21403
This five-pronged set of land and water trails commemorates the movements of British and American forces in the Chesapeake Bay region during the War of 1812. In the summer of 1814, British naval forces occupied the Chesapeake Bay, burned public buildings in Washington, D.C., occupied Alexandria, Va., and laid siege to Fort McHenry in Baltimore, Md. During that unsuccessful siege, Francis Scott Key wrote the poem that became the U.S. national anthem.

Trail of Tears
National Historic Trail
National Park Service
National Trails System Office
PO Box 728
Santa Fe, NM 87504-0728
The Trail of Tears commemorates the primary land and water routes used for the forced removal of over 16,000 Cherokee Indians from their ancestral lands in North Carolina, Tennessee, Georgia, and Alabama to Indian Territory (today’s Oklahoma) in 1838–39.

About this Book
This index is a complete administrative listing of the National Park System’s areas and related areas. It is revised biennially to reflect congressional actions. The entries, grouped by state, include administrative addresses and phone numbers, dates of authorization and establishment, boundary change dates, acreages, and brief statements explaining the areas’ national significance. This book is not intended as a guide for park visitors. There is no information regarding campgrounds, trails, visitor services, hours, etc. Those needing such information can visit each area’s web site, accessible through the National Park Service home page: www.nps.gov.

The Mission of the National Park Service
The National Park Service preserves unimpaired the natural and cultural resources and values of the National Park System for the enjoyment, education, and inspiration of this and future generations. The National Park Service cooperates with partners to extend the benefits of natural and cultural resource conservation and outdoor recreation throughout this country and the world.
