

Grand Marais Ski Trail

Pictured Rocks National Lakeshore
National Park Service
U.S. Department of the Interior

Winter Wonderland

Lakeshore ski trails are located in Munising and Grand Marais. Trails wind through a magical landscape in of a variety of habitats and topography. Beech, maple, hemlock, and conifer forests and old fields grow on the sandy uplands and rugged hills of old glacial features. The trails receive about 150 inches of snow a winter.

Each trail offers a variety of loop lengths for a leisurely day ski or quick workout at the end of the day. All Lakeshore trails are designed for diagonal stride only - skating is not permitted. Trails are marked with blue diamonds and a map at each intersection. Trails are groomed regularly - watch and listen for grooming equipment when you ski. Whether you are a novice or an accomplished skier, we hope you find the trails challenging and fun.

Watch for snomobiles at road and trail crossings!

For Assistance - Dial 911

A pay phone is located at the Grand Sable Visitor Center

For Your Safety

Trails C and D cross a county road used by snowmobiles - listen and watch for approaching snowmobiles before crossing. Ski trail conditions may vary. Heavy weekend use and alternating daytime thawing and nighttime freezing may turn snow packed slopes into fast, icy runs. Severe storms are common in the area and may rise quickly. Wind may obliterate the trail at times. Darkness comes early in winter so allow plenty of time to return to your vehicle before dark. Travel with a companion and let someone know where you are going. Wear adequate layers of clothing. Take food and water if you plan to be out for the day. Match your skill level to the trails you ski. Pets, winter camping, snowshoeing, walking, and skating are not permitted on Lakeshore ski trails.
