

A FREE EDUCATIONAL DAY ON: Propagation via Cuttings, Plant Phenology, Native Plant Salvaging and MORE! Part IV of Propagation Series

SATURDAY, SEPTEMBER 24th

10:00 AM—12:00 PM

POINT REYES NATIONAL SEASHORE ASSOCIATION'S

Morgan Horse Ranch

This is a free opportunity brought to you on behalf of a collaboration between the Point Reyes National Seashore, the Marin RCD and the Point Reyes National Seashore Association. Together they are initiating a volunteer-based nursery program to support resource management at the Seashore. The nursery will be a native plant nursery supporting the range and vegetation management programs in the Seashore and restoration in the overall Lagunitas Creek watershed.

In This Month's Class, Charlotte Torgovitsky with Home Ground Habitat Nursery Will:

- ◆ *TEACH us about the various ways to propagate through cuttings, seed collection permits & permissions, native plant rescue & salvaging opportunities in Marin, & observing plant phenology.*
- ◆ *PROVIDE A HANDS-ON ACTIVITY such as taking cuttings for propagation & practicing transplanting methods*

LOCATION: Morgan Horse Ranch is accessible at the very end of the Bear Valley parking area, at the pedestrian entrance to Bear Valley Trail, and past the Bear Valley Visitor Center. A sign indicating "Morgan Horse Ranch" is posted at the bottom of the hill.

**PLEASE RSVP with Marc Matheson
Volunteer Coordinator with
Point Reyes National Seashore Association at
Volunteer@ptreyes.org (415) 663-1200 x 310**

Light refreshments will be provided
