CHAPTER 1: PURPOSE AND NEED FOR ACTION

Introduction	1
Need for Proposed Project	5
Purpose of Proposed Project	7
Background on Property Purchase and Mitigation Requirements	7
Project Purpose and Relationship to Park Service Mission and Policies	8
Primary Project Constraints	12
Legislative and Policy Guidance and Other Considerations Used in Developing Purpose and Alternatives	13
National Park Service Legislation	13
Specific Park Legislation and Policies	14
Executive Orders	14
Other Federal Legislation	15
State and Local Legislation, Policies, and Plans	17
Other Considerations	18
Issues and Concerns Raised During Scoping	19
Public, Agency, and Internal Scoping Process	19
Additional Public and Agency Comment and Input after Scoping	19
Scoping Issues and Concerns	19
Public Review of DEIS/EIR	20
Impact Topics Analyzed in this DEIS/EIR	20
General and Agricultural Land Use	20
Geologic Resources	21
Soil Resources	21
Air Resources	22
Water Resources – Hydraulics and Hydrologic Processes	22
Water Resources – Water Salinity and Water Quality	22
Vegetation Resources	22
Fish and Wildlife Resources	23
Cultural Resources	23
Public Health and Safety	24
Public Services	24
Visitor and Resident Experience	24
Socioeconomics	25
Park Management and Operations	25
Impact Topics Dismissed from Further Assessment	25
Unique Ecosystems, Biosphere Reserves, World Heritage Sites	25
Environmental Justice in Minority and Low Income Populations	26
Tribal Land Use and Sacred Sites	26
Energy Resources	26
Long-Term Management of Resources and Land/Resource Productivity	26

CHAPTER 2: ALTERNATIVES, INCLUDING THE PREFERRED ALTERNATIVE

Overview of Alternatives	27
Project Planning and Alternatives Development Process	27
Alternatives	30
Detailed Project Area Description	32
Existing or Baseline Conditions	35
No Action Alternative, including Actions Common to All Alternatives	38
Restoration and Management Actions Common to All Alternatives	39
Mitigation/Restoration and Management Actions Unique to the No Action Alternative	43
Public Access Unique to the No Action Alternative	44
Construction	45
Alternative A – Limited Restoration of the Giacomini Ranch East Pasture Only with Expanded	

Public Access, Including Culverted Earthen Fill Trail on Eastern Perimeter, Including Actions Common to All Action Alternatives46

Restoration 48

Management 52

Public Access..... 53

Construction 56

Alternative B – Moderate Restoration of the Giacomini Ranch East Pasture and Limited Restoration of the West Pasture with Expanded Public Access, Including Boardwalk Trail on Eastern Perimeter58

Restoration 58

Management 65

Public Access..... 66

Construction 68

Alternative C (Preferred Alternative) – Full Restoration of the Giacomini Ranch East and West Pastures and Restoration of Olema Marsh, with Moderate Public Access70

Restoration 70

Management 77

Public Access..... 78

Construction 80

Alternative D (Environmentally Preferred Alternative) – Extensive Restoration of the Giacomini Ranch East Pasture, Full Restoration of the West Pasture, and Restoration of Olema Marsh with Limited Public Access82

Restoration 82

Management 88

Public Access..... 89

Construction 91

Alternative or Alternative Components Considered, but Not Analyzed Further93

Alternative or Alternative Components Subjected to Additional Analysis to Determine Feasibility Prior to Elimination from Further Analysis95

Eliminated Alternatives – Public Access 95

Eliminated Alternatives - Restoration: Olema Marsh 97

Impact Avoidance and Mitigation Measures.....98

Engineering Geologic/Geotechnical Measures 98

Design and Construction Commitments 98

Measures to Protect Water Quality..... 98

Measures to Protect Wildlife..... 99

Measures to Protect Vegetation and Prevent the Introduction and Spread of Invasive Plant Species 100

Measures to Protect Wetland Resources 100

Spill Prevention and Response Plan..... 100

Measures to Protect Natural Quiet and Soundscapes 101

Measures to Protect Air Quality 101

Measures to Address Effects on Traffic 102

Measures to Protect Public Services 102

Measures to Protect Cultural Resources 102

Measures to Protect Recreational Use..... 102

The Environmentally Preferred Alternative.....103

Sections 101(b) and 102(1) of NEPA.....103

The Preferred Alternative104

CHAPTER 3: AFFECTED ENVIRONMENT

Introduction137

Project Setting.....138

Regional and Park Context 138

Park and Project Area History 138

Regional and Project Area Climate..... 140

Land Use and Planning	141
General Land Use and Planning	141
Agricultural Land Use	150
Geologic Resources.....	152
Geologic Resources within the Region and Project Area	152
Topographic Resources within the Region and Project Area	155
Geologic Resource Issues - Geologic Hazards	160
Geologic Resources and Wetland Functionality.....	166
Soil Resources	166
Soil Resources within the Project Area	166
Soil Resource Issues - Prime and Unique Farmland Soils.....	169
Soil Resource Issues - Sediment Quality and Contamination.....	171
Soil Resources and Wetland Functionality	174
Air Resources	175
Air Resource Issues - Air Quality	175
Air Resource Issues – Noise and Soundscapes.....	179
Water Resources – Hydraulics and Hydrologic Processes	180
Regulatory and Policy Setting	181
Water Resources – Tidal and Freshwater Flows.....	181
Water Resources – Floodplains.....	200
Water Resources - Sediment Transport Dynamics.....	202
Hydrologic Processes and Wetland Functionality	207
Water Resources – Water Salinity and Water Quality	209
Water Salinity	209
Water Quality.....	214
Water Salinity and Quality and Wetland Functionality	227
Vegetation Resources	228
Regional Setting	228
Regulatory and Policy Setting	229
Vegetation Communities	230
Vegetation Communities of Special Significance – Wetlands and Riparian Areas	241
Vegetation Communities of Special Significance – CNDDDB Natural Communities	252
Special Status Plant Species	253
Threats from Non-Native and Invasive Plant Species.....	258
Vegetation Resources and Wetland Functionality	260
Fish and Wildlife Resources	261
Fish and Wildlife Resources Setting.....	262
Regulatory and Policy Setting	263
Fish and Wildlife Habitats	264
Fish and Wildlife Habitats of Special Significance	270
General Fish and Wildlife Use.....	271
Special Status Fish and Wildlife Species	281
Threats from Non-Native and Invasive Wildlife Species.....	293
Fish and Wildlife Resources and Wetland Functionality	295
Cultural Resources.....	297
Background and Regulatory and Policy Setting	297
Tribal Lands	298
Archeological Resources.....	298
Cultural Landscapes and Features	298
Historic Structures	299
Public Health and Safety.....	300
Flooding and Public Safety	300
Disease and Public Health	306
Public Services	309
Municipal Water Supply	309
Wastewater Treatment and Disposal.....	317
Traffic and Transportation	320
Visitor and Resident Experience – Public Access Resources	326
Regional and Park Setting	326

Regulatory and Policy Setting 327

Public Access Opportunities within the Project Area and Vicinity 328

Visitor and Resident Experience – Visual Resources and Viewsheds.....333

Background and Regulatory and Policy Setting 333

Visual Resources and Viewsheds in the Project Area and Immediate Vicinity 333

Socioeconomic Resources.....339

Park Operations and Management Resources.....340

Background 340

Park Operation and Management Resources..... 340

Project Operation and Management Resources 341

CHAPTER 4: ENVIRONMENTAL CONSEQUENCES

Introduction343

General Methodology for Assessing Impacts344

Baseline Conditions 344

Nature of Impacts 344

Intensity of Impacts 344

Impairment..... 347

Mitigation 348

Duration of Impacts 348

Type of Impacts 348

Context of Impacts 349

Projects Considered in Cumulative Impacts Analysis.....349

Resource-Specific Assessment of Impacts.....352

Land Use and Planning – General Land Use..... 352

Land Use and Planning – Agricultural Land Use..... 360

Geologic Resources 369

Soil Resources..... 381

Air Resources – Air Quality 393

Air Resources - Noise and Soundscapes 409

Water Resources – Hydraulics and Hydrologic Processes 425

Water Resources –Water Quality 446

Vegetation Resources 467

Fish and Wildlife Resources 500

Cultural Resources 565

Public Health and Safety – Flooding..... 571

Public Health and Safety – Disease and Public Health 583

Public Services – Municipal Water Supply and Distribution..... 594

Public Services – Wastewater Treatment and Disposal..... 607

Public Services - Traffic and Transportation..... 612

Visitor and Resident Experience – Public Access Resources..... 626

Visitor and Resident Experience – Visual Resources and Viewsheds 644

Socioeconomics 657

Park Management and Operations 662

Other Impact Analyses Mandated by DO-12 and CEQA670

Relationship between Short-Term Uses of the Environment and Maintenance and Enhancement of Long-Term Productivity 670

Irreversible or Irrecoverable Commitment of Natural or Depletable Resources..... 672

Avoidable and Unavoidable Major or Significant Adverse Impacts..... 674

Growth-Inducing Impacts..... 676

CHAPTER 5: CONSULTATION AND COORDINATION

Introduction679

Project Planning and Scoping..... 679

Identification of Lead and Other Interested Agencies 679

Public Scoping 679

Additional Information Gathering Efforts 680

Agency Involvement and Scoping 682

Summary of Public and Agency Comments 683

Release of Draft EIS/EIR for Public Review and Comment 684

Compliance Status 686

 Federal Regulations 686

 State and Local Legislation, Policies, and Plans 688

List of Preparers 690

List of Agencies and Organizations to Whom Notices of the Environmental Impact
Statement/Environmental Impact Report are Being Sent 692

 Federal Agencies 692

 Federal Advisory Groups..... 692

 Elected Officials..... 692

 State Agencies..... 692

 Regional, County, and Municipal Agencies 692

 Non-Governmental Organizations, Non-Profit Organizations, etc. 692

 Libraries..... 693

Literature Cited733

Index.....757

List of Figures

Figure 1. Giacomini Wetland Restoration Project Vicinity Map 3
