Tomales Bay State Park, Millerton Point Closure During Restoration Project

INVERNESS, Calif. – Millerton Point at Tomales Bay State Park will be closing Nov. 1-18, 2015 for a restoration project to improve native habitat.

The restoration project includes: Removal of invasive plants and revegetation with native plants collected on-site. All other areas of Tomales Bay SP will remain open during the project.

About California's Drought

California has been dealing with the effects of drought. To learn about all the actions the state has taken to manage our water system and cope with the impacts of the drought, visit Drought.CA.Gov.

Every Californian should take steps to conserve water at home, at work and even when recreating outdoors. Find out how at SaveOurWater.com

California State Parks Mission

To provide for the health, inspiration and education of the people of California by helping to preserve the state's extraordinary biological diversity, protecting its most valued natural and cultural resources, and creating opportunities for high quality outdoor recreation.
