

## Point Reyes Lighthouse Restoration - August 6, 2018, until December 31, 2019

All areas beyond (e.g., west of) the lighthouse visitors' parking lot are closed to all public access seven days a week. Visitors found in the closed area are subject to citation.

This closure is necessary to provide for visitor safety by closing an area that is very narrow and steep and in which there will be machinery working, torn up substrates, and heavy equipment that cannot safely accommodate visitors walking through the area.

PACIFIC OCEAN

Please note:  
The lighthouse is not visible from the parking lot.

CAUTION: Sand drifting across the road.
