Steep cliffs: The cliffs of Tomales Point are likely to crumble and slide. Climbing on them or walking near the edge invites catastrophe. Because of falling rocks, walking near the edge is dangerous. Keep away!

High tide: Check tide tables before visiting on beaches. Strong surf can trap you against a cliff with no possibility of escape.

Steep surf: The pounding surf, rip currents, and swirling undertow are treacherous, especially at McClures Beach, Kehoe Beach, and Point Reyes Beaches North and South. Stay away from the water.

Park boundary extend 1 mile from shore.
