High Tides
Check tide tables before walking on beaches. Sliding water can trap you against a cliff with no possibility of escape.

Steep Cliffs
The cliffs at Tomales Point, Chimney Rock Headlands, and the cliffs above Wildcat Beach and in the Alamere Falls area are likely to crumble and slide. Climbing on them or walking near the edge invites catastrophe. Keep away!

Heavy Surf
The pounding surf, rip currents, and wave action can be hazardous, especially at McClures Beach, Kelham Beach, and Point Reyes Beaches North and South. Stay away from the water.
