Point Reyes Road Closures in effect from June 1, 2020, until further notice

- **Steep Cliffs**: The cliffs at Tomales Point are likely to crumble and slide. Climbing on them or walking near the edge is catastrophic. Because of falling rocks, walking immediately below cliffs is dangerous. Keep away!

- **High Surf**: Check tide tables before walking on beaches. Large surf can trap you against a cliff with no possibility of escape.

- **Unmaintained Roads**: Unpaved roads are likely to crumble and slide. Because of falling rocks, walking immediately below cliffs is dangerous. Keep away!
