

Don't Help a Good Bird Go Bad!

Can you find the baby chick? Its parents take turn bringing food to it from the ocean. The chick is a marbled murrelet. The other birds are called Steller's jays. How many jays do you see in the picture? Jays will eat just about anything that can be eaten in the forest. Did you see the food on the picnic table? This campsite has not been cleaned up! The jays are staying around to get more food. They could find the chick! If that happens, the jays will eat the chick. You can help the murrelets by helping your parents clean up after eating in the forest. Remember to never feed any wild animal in the parks including birds. Thank you!
