Yurok Reservation
The lands within one mile of each side of the Klamath River from the Pacific Ocean to 43 miles upstream comprise the Yurok Reservation. Currently, only 10 percent of the land remains in Yurok ownership or trust status.

PACIFIC OCEAN

Steep Cliffs
Cliffs are likely to crumble and slide. Climbing on them or walking near the edge invites catastrophe. Because of falling rocks, walking below cliffs is dangerous. Keep away!

Falling Limbs
Tree limbs can fall during high winds, especially in old-growth forests.

High Tide
Check tide tables before walking on beaches. Rising water can trap you against a cliff with no possibility of escape.
