MPVC-Moraine Park Visitor Center
MPCG-Moraine Park Camp Ground
AGCG-Aspenglen Camp Ground
GBCG-Glacier Basin Camp Ground
BHRS- Big Horn Ranger Station

GENERAL INFORMATION:

This Calendar is an agenda for spraying Pine trees with Carbaryl to prevent Mountain Pine Beetle attacks.

Carbaryl spraying will only be conducted in areas which are closed to all people and free of pets and vehicles. All doors and windows must be closed.

Weather conditions must be favorable: wind cannot exceed 5mph at eye level; no precipitation within 2 hours of spray application. In consideration of changing weather, sites may need to be rescheduled.

This calendar will be updated daily based on spraying accomplishments. The spraying agenda does not generally exceed one week due to long-term weather uncertainty. Dispatch will be updated daily regarding spray plans.

Questions? Contact Garrett Boarts (x1433) or Chris Dahl (x1348).
