### **Isabella Bird's Visit to Colorado**

Isabella Bird was a traveler and a writer with a wonderful ability to describe her surroundings in great detail so that one feels as if they were there. Come hear about Isabella's lively adventures on her first trip to Estes Park in 1873 and of her arduous climb of Longs Peak (she was the third woman ever to climb Longs Peak) as well as of her romance with the rogue, Rocky Mountain Jim. She was dazzled by the Rocky Mountains and enthralled by the "blue hollow at the foot of Longs Peak" – Estes Park - which is written about in her book "A Lady's Life in the Rocky Mountains."

**May 30, 2015**

Mandy Cluck, *Interpretive Ranger, Rocky Mountain National Park*

### **Rocky and Bullwinkle: Moose in Rocky Mountain National Park**

Celebrate the Centennial: Wilderness, Wildlife and Wonder with this fascinating look at Rocky's largest charismatic mega fauna, the moose. Moose possess special, unique characteristics that enable them to survive and thrive here in the Kawuneeche Valley, much to our delight – and danger. As a wetland animal, the boggy west side of Rocky is the perfect habitat for this popular and interesting animal.
