

Teacher Discovery Program 2009-2010

A Saturday series of interdisciplinary workshops for intermediate level (grades 3-8) educators sponsored by St. Croix National Scenic Riverway is being offered in six sessions over the 2009-2010 school year. Instruction from National Park Service, Wisconsin Department of Natural Resources and classroom teachers will combine hands-on activities, field work, observations, along with lesson plan development. College credit from Northland College is available to participants who complete 36 hours of student work.
