Rincon Creek Open House to be held March 17th **The Rincon Institute and Saguaro National Park invite you to attend!**

Tucson, AZ – The Rincon Institute and Saguaro National Park will hold an Open House on March 17, 2010 from 6:00 to 8:00 pm at the Academy Village, Arizona Senior Academy, located at 13701 East Langtry Lane.

The purpose of the Open House is to provide an update on the water-right application filed by Saguaro National Park for instream-flow maintenance on Rincon Creek and information on other park natural-resource projects in the Rincon Valley. At 6:30 pm, a 20-minute presentation will be given on the water-right application with a question and answer period to follow. Before and after the presentation, National Park Service and Rincon Institute staff will be available to discuss Rincon Creek hydrology and wildlife, efforts to control invasive plants, backyard ponds and habitat restoration for leopard frogs, and fire management.

The Rincon Creek Open House is being hosted by the Rincon Institute and Saguaro National Park, with financial support provided by the National Park Service. For more information about either organization, visit the websites listed below. For additional event information, contact Lynsey Miller at 647-7389, or the Rincon Institute office at 520-647-7388.
