---

[1] The term "unmanned aircraft" means a device that is used or intended to be used for flight in the air without the possibility of direct human intervention from within or on the device, and the associated operational elements and components that are required for the pilot or system operator in command to operate or control the device (such as cameras, sensors, communication links). This term includes all types of devices that meet this definition (e.g., quadcopters, drones, quadroter helicopters, rotorcraft) that are used for any purpose, including for recreation or commerce.

(a)(2)The following areas have been designated for a specific use or activity, under the conditions and/or restrictions as noted:

- Pedestrians shall yield to equestrians. Bicyclists shall yield to equestrians and pedestrians.

- Speed limit for bikes on all park roads and trails is 15 miles per hour. Speeds above 15 miles per hour pose a safety hazard to riders, hikers, equestrians and others.

- Segways® PT and motorized scooters, such as a Rascal®, as defined under 36 CFR §1.4 are motor vehicles. However, any park visitor with a mobility disability is permitted to use Segways® PT and motorized scooters throughout the park, including all structures, facilities, park roads, sidewalks, trails, and other surfaces when such devices are used for the sole purpose of mobility assistance. Finally, use of a mobility assistive device, as outlined above, must also adhere to the following:
  - A person shall operate any mobility assistive device in a safe and responsible manner; maximum speed will not exceed more than 8 M.P.H. (Note: "Segway sidewalk/Intermediate key"), so as not to endanger the operator or any other park visitor.
  - A person riding any mobility assistive device upon and along a sidewalk, while crossing a roadway in a crosswalk or on any other surface shall have all the rights and duties applicable to a pedestrian under the same circumstances, except that the mobility assistive device operator must always yield to pedestrians.

Justification: This provides for the use of mobility assistive devices within the park for individuals with disabilities and protection of park resources and visitors.

  - Only electric or non-motorized model aircraft are allowed.
  - Only electric or non-motorized model vehicles are allowed.
  - Motorized model boats are not allowed on park waters.
  - Model airplanes and vehicles must be kept away from wildlife and equestrians.
  - Model aircraft operators must follow the safety guidelines stated in FAA Advisory Circular 91-57.

  - Scraping, chiseling, and brushing the natural features of the rock is prohibited.
  - The use of glue, epoxy, cement, or any other adhesive to attach, reinforce, or alter hand and/or footholds for rock climbing is prohibited.

Determining factors: Motorized drills create noise, and have the potential to create widespread damage to rock surfaces. Altering the rock surfaces for non-safety related use unnecessarily damages the flora.

The following restrictions and/or conditions are in effect for the specific uses or activities noted:

- Passenger carrying buses are subject to the following conditions/restrictions on all park roads within Santa Monica Mountains National Recreation Area:

  - Buses must shut down their engines when not underway.
  - Shuttle buses used at events as part of special park use permits are exempt when in-service.
