

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
405-East	405-East Trails General	Need more trails east of the 405 open to MB.
	General Comment	Need more MU trail opps in this area
	General Comment	Need more MB opps. Many neighborhood MBkrs in Wilacre, Treepeople, etc.
Backbone Trail System System-wide	General Comment	BBT in particular should be out-of-bounds for MBs: narrow, steep in many places with short sightlines.
	General Comment	Supports BBT as MU trail in its entirety
	General Comment	BBT represents our most unique experience. Should represent something difficult to access and reflect sense of remoteness. Part of trail camp mystique? Promote for unique qual's rather than bowing to pressure for one more homogeneous trail.
	General Comment	Bikes don't mix on narrow trails such as BBT and Tapia Spur Trail
	General Comment	Do not wholly open BBT to MBs, many sections not safe and would be dangerous for others.
	General Comment	Doesn't support High/Hybrid trails [MU] on BBT or in wilderness area.
	General Comment	Hiker who was almost struck on BBT this summer by first in line of MBs speeding arnd a steep, sharp curve.
	General Comment	Keep closed to MBs to preserve solitude and peace
	General Comment	Recommends leaving some parts of BBT closed to MU and keep other parts open for MU. Supports Hybrid plan.
	General Comment	Retain BBT and single-track tributaries in primitive character.
	General Comment	Should not be designated for MU: damage to vegn and habitat
	BBT Western Terminus	Terminus can be Sycamore Cyn and Overlook Trail, to Sycamore Cove. Since Sycamore Cyn is already MU, would be good solution.
	General Comment	Completion of BBT into Big Syc Cyn is fantastic project. Making full BBT MU w/camps is tremendous gift to outdoor rec community.
Backbone Trail System Ray Miller Trail	Ray Miller Trail	3-7 Trail should be low impact. Have Sycamore Cyn to ocean be terminus of BBT. It's already MU and there will be much less conflict.

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
	Ray Miller Trail	Blind Trailrunner/walker. Don't open trail to MU.
	Ray Miller Trail	Completely inappropriate for shared use of MBs.
	Ray Miller Trail	Do not open to MBs. Not safe.
	Ray Miller Trail	Don't open to MU.
	Ray Miller Trail	Keep open only for hiking/running. Safety main issue.
	Ray Miller Trail	Never open trail to MU: disruptive and dangerous
	Ray Miller Trail	Opposes opening trail to MU.
	Ray Miller Trail	should be hiker only
	Ray Miller Trail	Should never be open for MU.
	Ray Miller Trail	3-7 Good to have Ray Miller open for MU.
	Ray Miller Trail	If BBT is to be fully open for MU, Ray Miller Trail should definitely be included (built w/good sightlines & would allow dispersion of users from Sycamore TH.
	Ray Miller Trail	Should be open to bikes. No connection to La Jolla Valley, so wouldn't impact that area.
Backbone Trail System Etz Meloy Section	Etz-Meloy Motorway BBT - x6-7 5	Will be great to have this segment of BBT open at last.
Backbone Trail System Piuma Ridge Trail	Piuma Ridge Trail	12-7 Good plan to open to MU.
	Piuma Ridge Trail	10-8 Open Piuma Ridge/Saddle Peak to MU - currently no real cross mountain route for bikes.
	Piuma Ridge Trail	Appears to be no MB connector between Eagle Springs Fire Rd and Hondo Cyn.
	Piuma Ridge Trail	Completely inappropriate for shared use of MBs.
	Piuma Ridge Trail	Do not open to MBs. Not safe.
	Piuma Ridge Trail	Don't designate for MU. Realignment would be too damaging to vegetation and habitat.
	Piuma Ridge Trail	hiker/equestrian only
	Piuma Ridge Trail	Leave trail as-is.
	Piuma Ridge Trail	Should never be designated as MU. Damage to vegn & habitat from widening & rebuilding.
	Piuma Ridge Trail	Too env'tally sensitive to make into MU
	Piuma Ridge Trail	Would be a travesty to make it MU as shown on Hybrid & Hi.
	Piuma Ridge Trail	10-7 11-7 12-7 Converting BBT in this area to MU would be very welcome [Piuma - Hondo Cyn segments]. MBs have trouble w/BBT cuz so many segments are closed to MBs (Red Rock Cyn, Stunt Ranch, BBT east of Tapia).

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
Backbone Trail System Saddle Creek Trail	Saddle Creek Trail	Comments opposed to MU are same as Piuma BBT comments.
Backbone Trail System Saddle Peak Trail	Saddle Peak Trail	Grid 11-8 Short spur of BBT to the top of east Saddle Peak is shown as Admin Acc in all TMP versions. Should be open to HE to allow access to vista area, but priv prop & antenna farm area is ok as Admin Ac.
	Saddle Peak Trail	10-8 Open Piuma Ridge/Saddle Peak to MU - currently no real cross mountain route for bikes.
	Saddle Peak Trail	Comments opposed to MU are same as Hondo Canyon BBT comments.
Backbone Trail System Hondo Canyon Trail	Hondo Canyon Trail	Comments opposed to MU are same as Piuma BBT comments.
Backbone Trail System Dead Horse Trail	Dead Horse Trail	Don't designate for MU. Realignment would be too damaging to vegetation, habitat.
	Dead Horse Trail	Designate for MU
Backbone Trail System Musch Trail	Musch Trail	x13-7 Trail is not MU, so there's no way to ride east on BBT and get into Topanga SP, and there aren't any nearby trails that can be used as an alt.
	Musch Trail	Don't open to MU. Topo of trail would make use by MB disastrous to anyone on foot.
	Musch Trail	Opposes opening to MU. Disastrous to anyone on foot.
	Musch Trail	Keep open only to hikers/runners. Safety is main issue.
	Musch Trail	Don't designate for MU. Realignment would be too damaging to vegetation, habitat.
Backbone Trail System Rogers Road	Rogers Road BBT	Doesn't want BBT out of Will Rogers SHP to be MU. Safety issue for hikers.
	Rogers Road BBT	BBT cannot withstand continuous abuse by the MBs. Just too fragile. Also too narrow in some spots to withstand MU.
	Rogers Road BBT	Beginning of trail is an example of erosion caused by MBs.
	Rogers Road BBT	Clear example of MU trail that has become rutted, narrowed, where no room for hiker to get out of way of oncoming bike, making dangerous and unpleasant hiking experience
"Big Wild"	Rustic Canyon Trail	Trail is isolated, has no legal access, as shown.
	Sullivan Canyon	Connector betw Sullivan Cyn & Capri Rd is example of erosion caused by MBs.

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
	Sullivan Canyon	15-7 14-7 14-6 Leave OPEN for MU. One of favorite trails in SMMtns.
	West Mandeville Fire Road	15-7 Leave open for MU all Westridge social ridge trails paralleling fire rd. Everyone from bikers, hikers, runners enjoy using them.
Boney Mtn Wilderness		Agrees that trails in area should be closed to MBs.
Caballero Canyon	General Comment	Social trails provide diverse opps off main trail & disperse users. Should be MU.
Calabasas Area	Calabasas Trails General - 5	x11-6 Several new trails in area will provide options and connections to LV Creek Trail, Cold Creek Trail, Secret Trail, MCSP.
	Juan Bautista de Anza NHT	Segment betw Calab Rd & Las Virgenes Rd will be used for education purposes, and is also very steep in some parts. Should not be MU.
	Las Virgenes Creek Trail - 5	x10-5 10-6 New MU trail would be a great addition & connect Cheeseboro/LV with MCSP.
	Las Virgenes View Trail - 5	x10-7 10-6 Closing this trail to MB would not be appreciated.
	Las Virgenes View Trail	Much too narrow & hazardous to accom MBs & eqs. Should be HE, as in Low Alt.
	LV View Park Connector - 5	x10-6 11-6 Closing this trail would limit number of loops possible in high use plan.
	Secret Trail	hiker only - trail used for stream ecology education programs
	Secret Trail	Is a County trail, and as such, should be open to MB, although currently represented as closed to MB.
	Secret Trail	Ideal for nature walks. Multi-use designation would make trail dangerous to children and adults. Use Low Use designation.
	Secret Trail	Reserve trail, w/its numerous stream crossings, for hikers and nature study classes.
	Secret Trail	11-6 Good plan to open to MU and connect w/Calabasas Cold Creek.
Charmlee Wilderness Park		Grid 6-8 High impact use would destroy area visually, the sense of the place, the pace.

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
Cheeseboro Canyon/Palo Comado Canyons - Cheeseboro Canyon	Baleen Wall Trail - 5	x10-4 Supports proposed change to MU
	Baleen Wall Trail	10-4 Supports proposed change to MU
	Baleen Wall Trail	10-4 Supports proposed change to MU
	Baleen Wall Trail	10-4 Supports proposed change to MU
	Baleen Wall Trail	10-4 Supports proposed change to MU
	Cheeseboro MCSP Connector (Liberty Cyn Trail) - 5	x10-6 10-5 Will be great to have this be MU. Cheeseboro is so popular, the more trails, the fewer people will be on any one trail.
	Cheeseboro MCSP Connector (Liberty Cyn Trail)	10-6 10-5 Will be great to have this be MU. Cheeseboro is so popular, the more trails, the fewer people will be on any one trail.
	Cheeseboro MCSP Connector (Liberty Cyn Trail)	10-6 10-5 Will be great to have this be MU. Cheeseboro is so popular, the more trails, the fewer people will be on any one trail.
	Cheeseboro MCSP Connector (Liberty Cyn Trail)	10-6 10-5 Will be great to have this be MU. Cheeseboro is so popular, the more trails, the fewer people will be on any one trail.
	Cheeseboro MCSP Connector (Liberty Cyn Trail)	10-6 10-5 Will be great to have this be MU. Cheeseboro is so popular, the more trails, the fewer people will be on any one trail.
	General Comment	Don't close to MBs any trails in this area.
	Lower Cheeseboro Canyon Loop - 5	x10-6 10-5 Will be great to have this be MU.
	Lower Cheeseboro Canyon Loop	10-6 10-5 Will be great to have this be MU.
	Lower Cheeseboro Canyon Loop	10-6 10-5 Will be great to have this be MU.
	Lower Cheeseboro Canyon Loop	10-6 10-5 Will be great to have this be MU.
Lower Cheeseboro Canyon Loop	10-6 10-5 Will be great to have this be MU.	

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
	Morrison Ranch Trail Loop - 5	x10-5 Don't close this fire road (xx) to MB. Likes converting part of loop to single track, though. If closed to MBs, makes LV Creek Trail a deadend for MBs.
	Morrison Ranch Trail Loop	10-5 Don't close this fire road (xx) to MB. Likes converting part of loop to single track, though. If closed to MBs, makes LV Creek Trail a deadend for MBs.
	Morrison Ranch Trail Loop	10-5 Don't close this fire road (xx) to MB. Likes converting part of loop to single track, though. If closed to MBs, makes LV Creek Trail a deadend for MBs.
	Morrison Ranch Trail Loop	10-5 Don't close this fire road (xx) to MB. Likes converting part of loop to single track, though. If closed to MBs, makes LV Creek Trail a deadend for MBs.
	Morrison Ranch Trail Loop	10-5 Don't close this fire road (xx) to MB. Likes converting part of loop to single track, though. If closed to MBs, makes LV Creek Trail a deadend for MBs.
	Baleen Wall Trail - 2	Open it to MU. Far enough into park that MU might be appropriate.
	Baleen Wall Trail	Open it to MU. Far enough into park that MU might be appropriate.
	Baleen Wall Trail	Open trail to MU as in High/Hyb alts. Getting overgrown & MB use would help keep it clear. Far enough into park that MU would be appropriate.
	Baleen Wall Trail	10-4 Open to MB. Trail does not get enough use by hikers alone.
	Liberty Canyon Trail	Wildlife corridor - close to all uses
	Liberty Canyon Trail	wildlife crossing - close trail
	Liberty Canyon Trail	Don't impact wildlife corridor.
	Cheeseboro Canyon Trailhead	What provisions are being made for parking horse trailers at trailheads? Cheeseboro has been 10 yrs since NPS said horse trailer parking would be implemented soon.

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
Cheeseboro Canyon/Palo Comado Canyon - Palo Comado Canyon	Palo Comado Social Trail	9-5 Should be reopened for MU, especially section betw Smoketree TH and Chesebro Rd. Used to ride w/his young kids. Liked rope in tree. Could be elevated bridge over creek.
	Palo Comado Social Trail	9-5 Should be reopened for MU, especially section betw Smoketree TH and Chesebro Rd. Trail provides vastly different experience compared to parallel fire rd.
	Palo Comado Social Trail	Should be reopened for MU, especially section betw Smoketree TH and Chesebro Rd. Used to ride w/his young kids. Liked rope swing in tree. Could build elevated crossing over stream.
	Palo Comado Social Trail	9-5 Firmly opposed to already-closed trail to hikers. Agrees Eq & MB should be banned, but trail provides more intimate experience & safer hiking for kids. Freq of fast bikes on PC FR make it dangerous to walk w/kids - no alt since NPS closed trail.
	Palo Comado Social Trail	9-5 Open for use: Very nice trail for kids/variety. Nice for family walks - close to houses. Connect it to fire road.
	Palo Comado Social Trail	9-5 Please keep trail open. My kids like the rope swing there.
	Chesebro Road Palo Comado Cyn Connector - 5	x9-5 10-5 Opening up this neighborhood street would be great. Currently, climb back up from Palo Comado Cyn to Cheeseboro is very difficult.
Cheeseboro Canyon/Palo Comado Canyon - Palo Comado Canyon/China Flat/Wood Ranch	Albertson Fire Road - 5	x9-4 9-3 10-3 Glad to see Albertson is connecting to Rim of Valley Trail. Also would increase loop opportunities.
	China Flat Trails	Keep single track trails open in China Flat area, except cut-off trail on "east" loop arm. Interesting terrain and great views for all users.
	China Flat Trails - 5	x9-4 Don't close. Very popular and fun trails.

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
	China Flat Trails	Keep single track trails open in China Flat area, except cut-off trail on "east" loop arm. Interesting terrain and great views for all users.
	China Flat Trails	Keep single track trails open, although closing cut-off trail on East Loop shown on Hyb alt would be fine. Trails cover interesting terrain & provide great views for all users.
	Dead Cow Trail	Should remain open for MU. Good short "conditioning" ride.
	Dead Cow Trail - 5	x9-4 Don't close. Very popular for hikers and bikers.
	Dead Cow Trail	Should remain open for MU. Good short "conditioning" ride.
	Dead Cow Trail	Should remain open for MU. Closed in Low alt. Adopt Hyb or Hi Alt. Unique features/challenges for MBkrs.
	Dead Cow Trail	9-4 Please remain open - important trail.
	Dead Cow Trail	9-4 Keep trail open for MB and hiking.
	General Comment	10-5 Suggests acknowledging EU trail along N/S ridge betw Ranch Ctr Rd & Palo Comado Connector Rd. Already used, & doesn't seem to cross env'tally sensitive areas.
	Las Virgenes - Albertson Connector (Chute Tr)	Connector must remain open- this cut-off option avoids tortuous fire road option, hot and undesirable in summer.
	Ranch Center Road	9-5 10-5 Why re-route this road?
	Rim of the Valley Trail Marge Feinberg	Include as another regional trail system. See letter for specifics on signage, connections, camps.
	Suicide Trail	Should remain open for MU. Unique features not available elsewhere. Legendary status among MBs.
	Suicide Trail - 5	x9-4 Don't close. Very popular for some people.

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
	Suicide Trail	Should remain open for MU. Unique features not available elsewhere. Legendary status among MBs.
	Suicide Trail	Should remain open as an "unmaintained" trail. Unique features, & has been in place a long time, & hikers use too. Adopt Hyb or Hi Use designation.
	Suicide Trail	9-4 This is a very unique trail that needs to remain open.
	Suicide Trail	9-5 Very unique trail - essential trail for biking - a gem.
	Suicide Trail	9-4 Close it. Trail is unsafe and will never meet our trail-building standards.
	Unnamed Rancho Simi Trail	9-5 Why closing unnamed trail? It's well-established ridgeline fire rd very convenient to users entering from Smoketree TH. It's a natural match to Sunrise Meadow Ridge Tr. Very little env'tal benefit from closing.
	Upper Las Virgenes - Cheeseboro Connector - 5	x10-4 Recommends this trail be maintained instead of designated as unmaintained. Says the trail has dev'd deep ruts and could be lost to forces of nature if not maintained. Also known as Bell Canyon Trail.
Circle X	Carlisle Canyon - BBT Connector	Support for realizing this trail that could provide access from Lake Sherwood/Westlake Village area to regional trail system of SMMtns.
	(Carlisle Canyon) Sherwood Dedication Trail - 5	x6-6 All new trails will be welcome, especially when MU.
	Carlisle Canyon - BBT Connector	MU link should be added to connect this trail to Conejo MB bypass.
	Conejo Peak Mountain Bike Bypass	Strongly endorses bypass, but wants to know how likely creating the bypass would be: ROWS secured for bypass
	Conejo Peak Mountain Bike Bypass	Supports this new trail.
	Conejo Peak Mountain Bike Bypass	Few dollars available could be spent on far more important projects.
	Conejo Peak Mountain Bike Bypass	Supports MU trail connecting Sycamore Cyn to CX area.
	Conejo Peak Mountain Bike Bypass	Should obviously be open to MBs.

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
	Conejo Peak Mountain Bike Bypass	Strongly endorses bypass, but wants to know how likely creating the bypass would be: ROWS secured for bypass
	Conejo Peak Mountain Bike Bypass - 5	x5-6 Great idea.
	Conejo Peak Mountain Bike Bypass	4-6 5-6 Connector betw Mishe Mokwa & Asphalt Hill Alternative would be fabulous. Wonders if we have all rights-of-way, or will this trail ever really happen.
	Conejo Peak Mountain Bike Bypass	Conservn/trail ease over portion of French prop would complete trail from RSV to CX & would provide Conejo Valley more direct access to CX. No MBs if trail passes through Benew Mountain Wilderness
	Conejo Peak Mountain Bike Bypass	5-6 We need to address ownership or other alternatives to develop this trail.
	Etz-Meloy Motorway BBT	6-7 Hooray - we must complete BBT.
	General Comment	5-6 Echo Cliffs lower trail: Keep this open to climbers. The public, esp. climbers, will ALWAYS use this route to
	Grotto Trail	5-7 Connect Grotto Trail with/to Malibu Spring Trail or Malibu Spring North, or as an alt, make a "loop" trail of the existing Grotto Trail.
	Mishe Mokwa	Sandstone Peak area is a great hiking expanse free of bikers, including Mishe Mokwa Tr. Should remain that way
	Mishe Mokwa - 5	x5-6 Likes proposal to make western 1/2 MU.
	Trail Camp	Recommends CX be an equestrian camp for BBT because Sycamore Cyn Eq Camp is too short a distance for a day's ride
Circle X - Sandstone Peak	General Comment	Area is a great hiking expanse free of bikers, including Mishe Mokwa Trail
	Sandstone Peak BBT	Road to Sandstone Peak and into Circle X should be open to bikes. Views from hi pts in SMMtns should be enjoyed by ALL users. Same goes for Coyote Trail.
	Sandstone Peak Trailhead	Equestrian parking is so limited and far from where want to ride.
Coastal Slope Trail	Coastal Slope Trail	Given the usage of the CCT and the lack of campgrounds along the coast, consider if any of the BBT camps might also serve CCT or CST hikers (see letter for add'l ideas).

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
	Coastal Slope Trail/Temescal Canyon Trailhead	Consider ending CST at Temescal instead of Los Liones. More attractive trails down to coast (see letter).
	Coastal Slope Trail - 5	x12-8 13-8 Unfortunate that CST east of Tuna Cyn is designated for HE. That means Tuna Cyn would be end-of-line for MBs.
	Coastal Slope Trail	Will be a great addition to trail network.
	Coastal Slope Trail	Looks forward to completing connections and wants open for MU
	Coastal Slope Trail	Should obviously be open to MBs.
	Coastal Slope Trail	Looks forward to completion of missing segments in this trail system.
	Coastal Slope Trail	If have CST access pts west of Trancas, MTA might once again extend rte to Leo Carrillo during summer.
	Coastal Slope Trail	Plan a single track route for HE only. CST follows general route of an old eq trail that was incorp'd into LACMTP. Concerned that if CST has long stretches open to MB, it will absorb riders avoiding PCH to detriment of others.
	Coastal Slope Trail	Should not be shared use. Least dev'd trail should be dedicated to foot, hoof, maybe paw.
	Coastal Slope Trail/Trailheads	Given the neighborhood problems w/THs, would be good to put a few parking places at each trailhead to give permanence or to at least mitigate parking problems.
	Coastal Slope Trail/Trailheads	Have THds every 10 miles - good day hike distance.
Cold Creek	Stunt High Trail	Leave trail as-is.
	Topanga Ridge Motorway	Maps show trail as ending N of former Lookout tower site. Trail (not maint'd) continues & connects w/Calabasas Mtwy at junction w/Red Rock Rd. Recommends restoring connection: good views, interesting sandstone formations. (see ref in letter)
Corral Canyon	General Comment	Fix "loop" thru mid-Corral Canyon.

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
Deer Creek	Coastal Slope Trail	Trailhead at Deer Creek could provide access via a new trail to Charmlee trails
		Loop Opp: start at Syc Cyn, go up Serrano Cyn, return via Deer Creek holding.
Ed Edelman Park & Adj.	General Comment	13-6 No BIKE connection betw Topanga Cyn/Henry Ridge Mtwy TH to Summit to Summit Trail using Ed Edelman North Loop Trail.
	Santa Maria Canyon Trail - 5	x13-6 13-7 New Henry Ridge and Santa Maria Cyn trails will enable new loop thru Mulholland Gateway Park & Eagle Rock & Eagle Springs FR, then back to Dirt Mulh.
	Topanga/Henry Ridge Trail - 5	x13-6 13-7 New trail and Santa Maria Cyn trails will enable new loop thru Mulholland Gateway Park & Eagle Rock & Eagle Springs FR, then back to Dirt Mulh.
Franklin Canyon	Hastain Trail	He and wife encountered over 20 dogs off-leash on this trail. Most owners were belligerent when politely informed area is not an off-leash dog park. For safety/respect, can we get some random patrols up there on weekends.
Gillette Ranch		TMP is missing good service rd trail to top of small hill near SE corner of LV Rd & Mulh Hwy. Top is large flat area, partly shady, great destination.
Las Flores Canyon	Coastal Slope Trail	See 212 map. Good place for trail & TH in park in Las Flores. Would be good for small interp center. Also would be good for inland rte from CCT from Duke's Restaurant area.
Leo Carrillo State Park	Yellow Hill Road - 5	x5-7 Leave road open, in spite of being rugged. Fun for people who like that.
	General Comment	5-7 It's steep, but a trail connecting Leo Carrillo to CX BBT would be great.
	Nicholas Flat Trail - 5	x5-8 6-8 Supports conversion to MU.

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
	Nicholas Flat Trail	5-8 Nicholas Flats trails are currently closed to MU. Parks Commission said MU would be considered when trail plan started. MBkrs supported LC Gen Plan on this promise. Cyclists need riding in Leo Carrillo.
Malibu	Coastal Slope Trail	Grid 11-8 Use Malibu Pac Tr alignment (Malibu Trail Plan) ax State Park property. May have been error to put it in proposed alignment.
	Coastal Slope Trail	Maps delineate trail ax client's property. No easements exist for trail, so remove it from these parcels.
	General Comment	"Existing" hiking trail delineated ax client's property. No easements exist, especially no prescriptive right, so remove trail from maps.
Malibu Creek State Park	Grasslands Trail	Should be entirely HE, no MU, along w/Phantom Trail. Portion of trail north of Mulholland thru preserve area is MU, even tho it doesn't lead anywhere. Crags and trail up W side of LV Cyn can provide neces MB access.
	Lakeside Lateral - 5	x9-7 This singetrack & fire rd should be open for MU as on High alt, not closed as on Low. Provides fun/interesting alt to Bulldog & Lookout Rd.
	Lookout Trail	MCSP: Lookout Trail and Deerleg shouldn't be MU. Trails should remain HE. Both are narrow w/large, low oak branches. Need some areas in MCSP where hikers/eq's can quietly enjoy trails w/o working abt meeting fast hikers.
	Mesa Peak Mtwy BBT - 5	x9-7 Short segment of BBT just east of Corral Cyn TH, commonly referred to as "Little Moab", should be MU as shown in High alt, not as in Low.
	Mesa Peak Mtwy BBT	9-7 Designate as MU small section of BBT from Corral Cyn Trail [east to Mesa Peak Mtwy].
	Tapia Spur Trail	Should be an alternat trail that parallels Tapia Spur to avoid displacement of HEs.
	Tapia Spur Trail	Bikes don't mix on narrow trails such as BBT and Tapia Spur Trail. Implore not to cause us to abandon these trails out of fear for safety.

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
	Tapia Spur Trail	Commenter reported serious MU/equestrian accident he had on Tapia Spur Trail. Finds bikes on narrow winding cliffside trails could cause serious injury or death.
	Tapia Spur Trail	Don't close this trail to MBs.
	Tapia Spur Trail - 5	x10-7 Trail was rebuilt for MU recently. Closing to MBs would be hard to accept.
	Tapia Spur Trail	Was converted to MU despite much opposition out of safety concerns & is now mostly abandoned by eq's.
	Tapia Spur Trail	MB should not be allowed - accident waiting to happen.
	Tapia Spur Trail	Recent accident shows how wheels and legs don't mix. Trail is mostly abandoned by eqs., further disenfranchising a legit trail user group.
	Tapia Spur Trail	10-7 Trail is dangerous - should be HE only and not MU.
	Tapia Spur Trail	10-7 Leave open for MU. It's been open & adjusted for MU w/o incident. Makes safer for MB not to be forced onto Malibu Cyn Rd.
	Las Virgenes/Malibu Canyon Road	clarify if this is the road or a separate parallel trail
	Yearling Trail	Is an historic trail from time it was a road when Pres Reagan lived there. If Tapia Spur Trail is considered ADA, then so should Yearling.
Marvin Braude Gateway Park	General Comment	Keep social trails of dirt Mulholland to add MU opps w/minimal habitat disturbance.
Paramount Ranch	General Comment	9-6 Closure would eliminate great place to take kids [for MBking?]. Use High Impact alt.
	Paramount General - 5	x9-6 9-7 Keeping all trails at Paramount Ranch closed to MBs would cause the connector from Pentachaeta Trail to MCSP to be a deadend for MBs.
	Paramount Ranch Connector Trail	9-6 Important to establish trail as a designated trail - it is the very important link to Zuma Ridge Trail for HE.
	Paramount Trails	too many multiuse trails, some parallel. Consider making another hiker only trail

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
	Zuma Ridge Trail	Trail alignment is inconsistent w/Ag Village Specific Plan & should be realigned (see letter)
Peter Strauss Ranch Adj	Zuma Ridge Connector Trail (PS Ranch-adj) - 5	x8-6 8-7 Trail, next to Peter Strauss Ranch TH, should be MU as shown on High alt, to allow MBs to go from PS to Rocky Oaks and on to Zuma Ridge.
Pt Mugu State Park La Jolla Canyon/Valley	General Comment	Not in favor of opening area to MB, including Ray Miller Tr, Mugu Peak Tr, Valley Loop Tr.
	La Jolla Valley Fire Road	Open trails in La Jolla Valley & Big Sycamore Cyn to MB. If conflicts, limit bike use during peak use periods.
	General Comment	We, as bicyclists, should support continued closed status of La Jolla Valley.
	La Jolla Valley Loop Trail	a short new trail connecting LJVLT and Overlook FR at 1,000-ft elev to close a loop for a less than 6-mile hike from Ray Miller TH
	La Jolla Valley Trail	Don't open to MU.
	Mugu Peak Trail	Don't open to MU.
	Point Mugu HO Trails General	Completely inappropriate for shared use of MBs.
	Ray Miller Trailhead	Needs to be camp and rig parking at TH for equestrians who arrive late & want to start early the next day.
	La Jolla Backcountry Camp	3-7 [Campground not illustrated]. Will this be closed?
	La Jolla Valley Fire Road - 5	x2-7 Trail is currently MU over entire length. High alt converts west end to HE. Whole thing should remain MU.
	La Jolla Valley Loop Trail - 5	x2-7 SW and N segments of this trail should be MU so MBs can use it. Would also connect Mugu Peak Tr w/Sycamore Cyn.

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
	Mugu Peak Trail - 5	x2-7 Supports making trail MU, although it deadends for MBs, so not really accessible.
Pt Mugu State Park Sycamore Canyon	Broome Ranch - Hidden Pond Connector	Grid 4-5, 4-6, Trail should be open for MU
	Broome Ranch - Hidden Pond Connector	Should be open to bikes. Increases loop options that would decrease use of Sycamore Cyn.
	Broome Ranch - Hidden Pond Connector - 5	x2-6 Great to have trail converted to MU.
	Broome Ranch - Hidden Pond Connector	Designate for MU
	Broome Ranch - Hidden Pond Connector	Designate MU (4-5, 4-6).
	Broome Ranch Trail	This and Broome Ranch Rd shouldn't be opened unless barbed wire and beehives have been removed. (sections 2-6, 3-6)
	Broome Ranch General Comment	What is status of Broome Ranch? How will this land ownership affect the TMP process? Talk to Walt Young regarding this property.
	Buckeye Trail - Asphalt Hill Bypass	When open, in conjunction w/Sin Nombre & Two Foxes, will make MB loop that'll take bikers off crowded Syc Cyn Fire Rd.
	Buckeye Trail - Asphalt Hill Bypass	Should be an alternative to using the paved rd to access most trails in Pt Mugu SP (paraphrased because commenter must be referring to Asphalt Hill Bypass).
	Buckeye Trail - Asphalt Hill Bypass	Buckeye Trail, combined w/Sin Nombre & Two Foxes Trails would make an uninterrupted loop trail w/o ever being on Sycamore Cyn.
Buckeye Trail - Asphalt Hill Bypass - 5	x4-6 Supports new trail. Nobody likes Asphalt Hill, up or down.	
Buckeye Trail - Asphalt Hill Bypass	This trail in conjunction w/Hidden Pond, Coyote, etc., will provide diverse opps & disperse users	

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
	Buckeye Trail - Asphalt Hill Bypass	combined w/Hidden Pond, etc., would make a great MU loop & would remove expert bikers from Big Syc Cyn Fire Rd
	Buckeye Trail - Asphalt Hill Bypass	Creation of Asphalt Hill bypass based on asphalt as an unacceptable tread type poses cultural/historical questions, and what about other uses of asphalt in other
	Buckeye Trail - Asphalt Hill Bypass	Should be an alternative to using the paved rd to access most trails in Pt Mugu SP [paraphrased because commenter must be referring to Asphalt Hill Bypass].
	Buckeye Trail - Asphalt Hill Bypass	4-5 Should be an alt to using paved road to access majority of park area trails. If new trail can't be constructed, other trail, such as Upper Sycamore Trail,
	Buckeye Trail - Asphalt Hill Bypass	4-5 4-6 Should include this bypass on Low alt, too.
	Coyote Trail	Recommends opening for MU.
	Coyote Trail	Trail in section 3-6 should be open to bikes.
	Coyote Trail - 5	x3-6 Southern 1/2 of trail is built to MU stds & should be open to MBs. Better to have whole trail open for MU. Currently gets underused and overgrown.
	Coyote Trail	Designate for MU
	Coyote Trail	Designate MU (3-6, 4-6)
	Coyote Trail	3-6 Maintain or re-route trail and open to MU.
	Fireline Trail - 5	x3-7 Should be an MU trail, not just HE.
	General Comment	Had bad MB encounter on Two Foxes Trail when leading group of 20 hikers: refused to stop pedaling while passing, when trail is paralld by wide fire rd. Should never allow MBs on trails that parallel fire rds.

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
	Hidden Pond Trail	Recommends opening for MU.
	Hidden Pond Trail	Trail in section 3-6 and 4-6 should be open to MBs
	Hidden Pond Trail - 5	x3-6 4-6 Should be open for MU.
	Hidden Pond Trail	Designate for MU
	Hidden Pond Trail	Designate MU (3-6, 4-6)
	Hidden Pond Trail	3-6 4-6 Should be open for MU. Excellent alt to uninspiring asphalt rd. Far from TH, so use would be low and by experienced trail users, minimizing conflicts.
	Hidden Pond Trail	3-6 4-6 Lightly used trail right now. Open for MU.
	Guadaluca Trail	Connect CSUCI to Park via Broome Ranch to Guadaluca Trail.
	Illegal Boney Mountain Trail	5-6 Needs to be addressed as legal trail on all alts (make HO).
	Illegal Boney Mountain Trail	5-6 Make official the Danielson Cabin Trail to Tri-Peaks. This will ALWAYS be an issue unless we address the public-setting precedent of having a trail to Tri-Peak/Sandstone
	Illegal Boney Mountain Trail	5-6 Need to either maintain or close this trail.
	Illegal Boney Mountain Trail	"illegal" trail is popular. It is steep and can be dangerous. If it becomes official, it should be rerouted and maintained.
	Sin Nombre Trail	Don't close this trail to MBs.

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
	Sin Nombre Trail - 5	x4-6 Don't close short connector betw paved Syc Cyn Tr and Sin Nombre.
	Sin Nombre Trail - 5	x4-6 Keep as MU on preferred alt
	Sin Nombre Trail	A trail connecting Sin Nombre to Sage Trail in Mugu is missing.
	Two Foxes Trail	Don't close this trail to MBs.
	Two Foxes Trail - 5	x3-6 Keep as MU on preferred alt
	Danielson & Sycamore Overflow Camps	Concerns about getting feed to horses at this camp cuz of \$40 ranger escort fee. Also, camp is too close to Ray Miller TH for a day's ride. (See next comment on CX as equestrian camp.)
Rancho Potrero (COSCA)	General Comment	Two Winds: How will the (possible) relocation of Two Winds affect TMP process?
	Rancho Potrero Trail	Supports Rancho Potrero-RSV connector. All trails should be MU. Consider add'l trail connection betw Rancho Potrero & RSV on S side of Two Winds.
	[Name?] - 5	x4-5 4-6 Opening to MU would be great.
	Hidden Valley Overlook Trail - 5	x4-6 5-6 Supports proposed MU.
	Ranch Overlook Trail	Should be open from Satwiwa Center to main entrance on Lynn/Potrero Rd.
	Ranch Overlook Trail	Should be open from Native American cultural center to main entrance on Lynn/Potrero Rd. Currently only open to main parking lot.
	Ranch Overlook Trail	Should be open from Satwiwa Center to main ent at Lynn/Potrero Rds. Is part of Anza Trail & all segments should be open to MB.

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
	Rancho Sierra Vista Connector Trail - 5	x5-6 Supports making this trail for MU as part of connection betw CX and Sycamore Cyn
Red Rock Canyon BBT East of Tapia	[General Comment] - 5	x11-7 12-7 High alt proposes many conversions to MU that will give MB more options in area. Currently, there's only a single short fire rd open to MB.
Rocky Oaks	General Comment	8-6 Missing connector from back of Lobo Cyn to Rocky Oaks - existing, but not official.
	Zuma Ridge Trail - 5	x7-7 8-7 This new MU trail, connecting BBT to PS Ranch via Rocky Oaks, would expand options in area considerably, esp. if connect to Westlake Village thru Paramount Ranch.
Simi Hills	[General Comment]	Why are all four of the easily usable canyons in the Simi Hills wide open to MBs? Why can't one or more be closed to all but HE?
SMMNRA	General Comment High Use Alt	Ensure enough enforcement of illegal mtn bike use if this alternative is chosen. Otherwise do not expand trail system.
	General Comment	Blind Trailrunner/walker. Don't open other single-track trails to MU.
	General Comment	Need more trails open to MU. At minimum, adopt Hybrid w/commenter's other suggestions. Thinks TMP was generated by people who don't understand intricacies of user groups they're trying to represent.
	General Comment	Loop trails are desirable, & more loops might be planned w/relatively new trail being built.
	General Comment	start and end cross-mtn trails near main cross-mtn roads, to aid hikers who want to car shuttle or use public trans, including links inland from Cal Coastal Trail, for example
	General Comment	Too many trails already for MU. Bulk of hiking (single track) trails (not fire rds) should be restricted to hikers & eqs.
	General Comment	Preserve H or HE experience on level trails in several parks: Grasslands Tr, Craggs trail, mid & lower Big Syc Cyn, Solstice Cyn, Cheeseboro, Palo Comado, Las Virgenes Cyns.

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
	General Comment	Good TMP should encourage or require bicyclists to use more rugged mtn trails and stay off, as much as possible, our few level, heavily used trails.
	General Comment	MBs should utilize ridgetops, mtnsides, and more rugged cyns & be discouraged from using easier, more accessible trails. Place emphasis on serving needs of ordinary, less organized users: urban schoolchildren, families, the elderly.
	General Comment	Close any trails w/notably deleterious impacts to wildlife.
	General Comment	As urban interface expands, need fewer trails to maintain sense of wonder the park provides.
	General Comment	Strongly opposes new reroutes of old trails just to accommodate MBs.
	General Comment	Not enough Hiker Only trails shown in the High Alternative
	General Comment	Signage should be present in all new trails. Do not build more trails near wilderness areas. Focus of new trails should be near urban interfaces.
	General Comment	Concerned that unmaintained trails will become overgrown, eroded, even dangerous.
	General Comment, Trail Heads	Not adequate THds to accommodate horse trailers. NPS Landscape Architect should establish accurate TH stds & expand limited # of eq access pts. ETI, American Qtr Horse Assoc would help define stds.
	General Comment	Need more trails open to MU. At minimum, adopt Hybrid w/commenter's other suggestions. Thinks TMP was generated by people who don't understand intricacies of user groups they're trying to represent.
	General Comment	Low Use alt is unnecessarily restrictive to MBking. MU trails should be default designation, current MU trails shouldn't become more restrictive, new trails should be MU.
	Juan Bautista de Anza NHT	Looks forward to completing connections and wants open for MU
	Simi-to-the-Sea Trail System	Looks forward to completing connections and wants open for MU
	Topanga Canyon Blvd	Don't include paved rd mileage in trails open to MU.
	Unmaintained Trails - 31	Supports bringing into system add'l unmaintained trails

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
	Unmaintained Trails	Unmaintained trail betw Rogers Rd & Sullivan ridge needs to connect as MU to complete loop w/o leaving trail experience on Sunset Bl.
	Trail Camps	Provide for at least 10 horses at each trail camp. Provide high line and 2 hitching rails.
	Trail Heads	All SMMNRA THds should be at least tertiary w/prominent signage, visibility, kiosks. Maintain firm presence plus publication of THds to ensure long-term ingress/egress at multiple public access points.
	Trail Head Fees	Lives in Tarzana & is assessed the \$40 fee for mtns, & thinks these residents should be sent parking pass. Doesn't like fees at THds-walks further to avoid them, but older & less agile people are forced to accept them. Do something about this.
Solstice Canyon	Deer Valley Loop - Solstice Canyon Connector	9-8 Old Army Camp Rd needs to be reopened to HE to connect with Deer Valley, keeping Rising Sun less heavily travelled.
	General Comment	Grid 9-8, 9-9 Like it. New connector, like ??? Solstice trail to paved & trail rather than all paved.
	Newton Motorway	8-7 Resolve this legal problem/ROW to allow PUBLIC use.
	Solstice Canyon Trail	Unclear what use desig, MU, is over main trail up canyon. Should not be MU owing to tremendous educ potential & use as place for strolling & nature observation, not active recr given sensit resources & limited MB accessibility area.
	Rising Sun Trail	9-8 Remove treads, widen trail at rock to permit
	Solstice Canyon General - 5	<p>9-8 9-9 10-9 10-8 New MU trail desig's & fire rds that connect BBT near Corral Cyn TH to Lower Solstice & over to lower Corral Cyn, then up to Mesa Peak would make a great new loop option.</p> <p>Grid 9-8, 9-9 Nope. Keep ped prettiest ??? Walk is up main trail to Rising Sun, then ??????. New connector is important addn for wilder more natural walk & shows Solstice more fairly - MB already have existing creek side trail.</p> <p>Need to provide poop bags & educational reminders to clean up.</p>

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
Sullivan Canyon	General Comment	Would be disappointed to lose MB access to this wonderful area.
	General Comment	14-7 Closing Sullivan/Rustic Cyns negatively impacts MBking - some of the best trails currently open (or existing)
	General Comment	14-6 14-7 Sullivan Cyn is one of best MB trails in that area. Wide enough to accom MU. Rustic Cyn has very little use & should not be closed to MB.
	Sullivan Canyon General - 5	x14-7 15-7 Sullivan Ridge Fire Break Trail, Sullivan Cyn, W Mandeville Fire Break are all popular. Closing fire breaks to MU would cut off area for MBs, cuz wouldn't want to ride on just fire rds. Would go ride in Topanga Cyn, increasing traffic there.
	Trail Head	Secondary THd is needed at upper East Mandeville FR and Cynback Rd.
Top of Reseda	Rita Walters Trail	Isn't shown on current condit's map, & altho recently closed on technicality, should be MU in any alt.
Topanga State Park	Bay Tree Trail -31	Redraw trail into Low Use Alt
	Bay Tree Trail	Don't close, as depicted on Low & Hybrid. Keep open as in High Alt.
	Bay Tree Trail -5	x14-7 14-6 Good to see Bay Tree Trail re-opened, but terminates at HO-Rustic Cyn Trail. [MB: Fixed alt's to not have Bay Tree Trail MU in any option. Was a mistake]
	Bay Tree Trail	Requests trail remain an active trail. Gives access to unspoiled area close to Westside and SF Valley.
	Bay Tree Trail	Open trail & make MU to connect to Farmers Ridge via Rustic Cyn
	Bay Tree Trail	trail is an example of erosion caused by MBs.
	Bay Tree Trail	14-7 Bay Tree/Rogers Rd - BBT connector is completely lost from last rains. [remove from GIS]
	Bay Tree Trail	Encourage to include it in Low Use Plan
	Bay Tree Trail	14-7 We favor trail be opened on Low Use Map.

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
	Bay Tree Trail	14-7 Leave OPEN for MU.
	Bent Arrow Trail	Should be HO
	Bent Arrow Trail	Trail should not have equestrians because it is steep and has wooden steps.
	Bent Arrow Trail	Designate for MU.
	Bent Arrow, Upper Trail	14-6 Keep OPEN for MU off Farmer Ridge.
	Broken Arrow Trail	should be restricted to hiker only due to steep conditions, overhanging branches [do they mean Bent Arrow Trail?]
	Reservoir to Topanga Fire Road Connector	bring this unmaint trail into network. Combined w/Santa Ynez Park/Reservoir access rd, completes a good loop trail up to Trippet Ranch. Coastwalk does this walk every year.
	Santa Maria Trail	Hikers/equestrian Only
	Santa Maria Trail	No MU
	Santa Ynez Canyon Trail	Completely inappropriate for shared use of MBs.
	Santa Ynez Canyon Trail	Make loop by improving Fire Break Trail & unmarked/unmaint'd trail that follows Santa Ynez Creek to Verada del la Montura to form loop from Trippet Ranch w/Santa Ynez Cyn Tr.
	Santa Ynez Park Reservoir Access Road	Bring this unmaint trail into network. Combined w/Reservoir to Topanga Connector, completes a good loop trail up to Trippet Ranch. Coastwalk does this walk every year.
	Temescal Canyon Trail	Completely inappropriate for shared use of MBs.
	Topanga Canyon Blvd	Paved rd mileage should be excluded from trail mileage tallies
	Topanga Lagoon CST Alt	13-9 Do not close trail, or please propose reroute.
	Waycott Trail	Misspelled as Wycott. Mr. Waycott doesn't want his name used on trail. Current name only given to trail on W side of Sullivan Cyn. No name on E portion. Talk to Ralph for name ideas
	Will Rogers HO Trails General	Completely inappropriate for shared use of MBs.

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
Triunfo Canyon		Trail in proposed location is acceptable to client. If change alignment, notify the client (Vera/Ray Stewart).
Tuna Canyon	General Comment	Don't bring new trails thru private property in Tuna/Las Flores Cyns w/o discussed with neighbors first.
	Tuna Canyon Trail	Abandon High/Hyb Alts, routes trails thru private resid areas, especially this trail that runs across commenter's property.
	Tuna Canyon Trail	Trail goes across commenter's private property. Wouldn't be opposed to trail if re-routed off private property onto adjacent SMMC property.
	Tuna Canyon Trail - 5	x12-8 Nice to see an MU trail that would allow MBs to get to Tuna Cyn from BBT.
	Tuna Canyon Trail	Abandon trail (Grid 12-8) because didn't notify neighbors, but also because it runs thru private property. Move it over to nearby SMMC property.
	Tuna Canyon Trail	Realign the trail ax SMMC land, not private land.
Upper Las Virgenes Canyon Open Space Preserve	Ahmanson Trails General 5	x10-5 11-5 Ahmanson Ranch needs more single track trails. Would like East Las Virgenes Cyn Rd and JBDA to be converted to single track like low use plan.
	Victory TH	Will be one of these critical access pts for eqs because adj community, Chatsworth, is planned/zoned for horse keeping.
	Las Virgenes - Albertson Connector (Chute Tr)	9-4 Connector must remain open- this cut-off option avoids tortuous fire road option, hot and undesirable in summer.
	Las Virgenes Canyon Road - 5	x10-5 Favors MU designation of road.
	Las Virgenes Canyon Road	Close trail to MU, make HO, but open old Conservancy Trail to MU.

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
	Las Virgenes Canyon Road	Avoid impacting stream along trail.
	Las Virgenes Canyon Road	10-5 Trail should remain MU. Offers nice climbs & great vistas. If closed to MBs, should also be closed to Eq, since no justification for allowing one class of users and not the other. Has been open to bikes long time w/o problems.
	Las Virgenes Canyon Trail	Consider closure after a rain. Trail is narrow, wet and muddy. Build new trail for high impact use.
	Las Virgenes Canyon Trail	Don't close this trail to MBs.
	Las Virgenes Canyon Trail	Keep trail (not to be confused w/the fire rd) open for MU. Nice climbs, great vistas. Not aware of any conflicts w/eq's or other users on this trail. Not fair to close just to MBs.
	Las Virgenes Canyon Trail	Keep trail (not to be confused w/the fire rd) open for MU. Nice climbs, great vistas. Not aware of any conflicts w/eq's or other users on this trail. Not fair to close just to MBs.
	MRCA Trail - 2	Should remain open for MU. Good alternate to Bell Cyn FR during muddy times. Good line of sight, more MB use would help keep trail cleared & maintained.
	MRCA Trail - 5	x10-5 Favors MU designation of trail.
	MRCA Trail	10-5 Should remain open for MU. Bell Cyn Fire Rd has mud problems in rain, MRCA trail is nice alternative. Far enough in to avoid user conflicts. Adopt Hi alt approach to trail.
Wilacre Park	Betty B. Dearing Trail	Paved rds & fire rds in park are signed for MU. Paved section of lower BBD, and fire rd section of BBT leading to TreePeople are signed as MU. Should remain MU in all alts.

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
	Trailhead Parking Fees	Should be no fees for parking. Don't propagate Wilacre fiasco.
Will Rogers State Historic Park	Rustic Canyon Trail	Portion of trail marked as unmaint'd follows stream thru small gully. A trail segment going arnd gully would make trail usable yr-rnd.
	General Comment	Need to provide poop bags & educational reminders to clean up
Zuma/Trancas Canyons Trancas Canyon	Three Park Trail - 5	x6-8 7-8 7-7 Supports completing this trail. Would provide MB access from BBT to beach, if all connecting trails get constructed.
	Trancas Canyon Trail - 5	x7-7 7-8 Has great view of coastline & shouldn't be closed to bikes.
	Trancas Edison Rd - 5	x7-8 Would be great MU connection from this trail east to Zuma Ridge and west to CST. Would be against HE designation in Low Alt.
Zuma/Trancas Canyons Zuma Canyon	Coastal Slope Trail	Grid 8-9 CST @ Kanan/Edison Rd - proposed MU deadheads into HE - again, asks for conflict.
	General Comment	Grid 8-9 "Caltrans Pullout" = what is point of proposed MU trail deadending into an existing HE trail at Zuma (asking for conflict).
	Killer Trail	Grid 8-9 Some alt's close this Zuma ridge connector. Seems like perfect place for bikes to be allowed if trail can withstand them.
	Ocean View Trail - 5	x8-9 Converting this trail to MU so it can be part of CST makes sense.
	Zuma Bluff Trail - 5	x8-8 Always in favor of more MU trails.
	Zuma Bluff Trail	8-8 Open & maintain trail. I will help as will MANY equestrians.
	Kanan Trailhead	Should reconsider long-term planned major trailhead. Would be a solution for problem-plagued THds of Zuma.
	Busch Trailhead	Should be gated. Vehicles at night & mud cause majority of degradn & nuisance. "Walkover" could permit HE to access trails when vehicles prohibited.
	Busch/Bonsall Trailhead Facilities	8-9 THds [Busch/Bonsall?] need restroom facilities.

SMMNRA Interagency Trail Management Plan

September 2005 Scoping, Trails and Other Facility Suggestions/Comments

Note: Reference to number (ex. 15-7) refers to map grid system number on Conceptual Trail Maps

AREA	TRAIL/FACILITY	FACILITY COMMENT
	Kanan BBT Trailhead	8-7 Need restroom at Kanan TH.
Zuma/Trancas Canyons Lower Zuma Canyon	General Comment	Bikes and dogs represent danger to horses in Zuma Park. Consider that if one stretch is opened to MBkrs, they will use all other trails.
	General Comment	Vehemently opposed to plan to allow bicycles in Zuma Canyon. Allowing MB would attract more & more, & they'd be on ALL of the trails. Make signage LARGER forbidding MBs.
	General Comment	Opposed to opening any trails in Zuma Cyn to MU, trails are narrow and winding on steep hillsides. Bikes won't restrict selves to designated pass-thru trails. Would ruin serenity. Not enough LE to patrol.
	General Comment	Don't open any trails here to MU. Very risky trails for meeting a horse. Horses have spun 180, bolted, run into other horses in the way. Only reason it has seldom happened is cuz bikes are limited to fire roads, etc.
	General Comment	Saddened by TMP proposal to permit bikes on trails in Zuma Cyn. Walking & wheels don't mix.
	General Comment	Zuma Cyn is perfect as-is. Bikes crossing entrance path or along canyon rim w/in sightlines - nope.
	General Comment	8-9 Dead-end MU trail that exits on to H/E trail. [need to figure out which alt]
	Ocean View Trail	Very bad idea to let bikes through lower Zuma. Trails don't remotely resemble MU stds. MBs would undoubtedly venture onto HE trails they cross. Policing would be impossible.
	Zuma Ridge Canyon Connector Trail	Open to MU. Only Hi Alt has it proposed for MU.
	Zuma Ridge Canyon Connector Trail	Don't open to MBs the trails connecting Kanan ridge to Zuma ridge. Takes thru lower cyn. Shouldn't be MU cuz topography contributes to inadequate safety for all other users.
