

## Bear Habitat: Proper food storage is the law!

**Bears can grab unattended food or easily break into cars that have food in them. They become bold and sometimes aggressive in attempts to get more. Too often these bears must be killed.**

This is why you may be fined if you do not store food properly. Follow the rules below to reduce (but not eliminate) the risk of a bear break-in.

### Drivers

Never leave any food or scented item in cars where food-storage boxes are provided.

### Picnickers

Never move away from coolers and tables when food is out. Stay within arm's length of food.

### Lodge Guests

Keep doors closed any time you leave.

### Campers

Store food day and night in the metal boxes provided (avoid bringing coolers that won't fit; most boxes are 47" long x 33" deep x 28" high. Store ALL food, coolers, related items, and anything with an odor (even non-food) — including unopened cans and bottles. Latch the box completely. Food not stored properly will be impounded. Where boxes are not provided, seal food to reduce odors, cover it well, and close the windows. Keep a clean campsite. Deposit garbage immediately in bear-proof containers or store it like food. Take baby seats out of cars; the smells they absorb may attract bears.

### Backpackers

Hanging food often fails! Store all food in a portable container. Less than 3 pounds, it holds up to 5-day's food for one and fits in a pack. Metal boxes in a few wilderness locations offer backup storage. Rent/buy a container at visitor centers or markets.

### Everyone

Don't let bears approach you, your food, picnic area or campsite. Wave your arms, make loud noises, and throw small rocks toward them (avoid hitting the face or head). Keep a safe distance but be persistent. Abandoning your food teaches bears that approaching humans is acceptable. However, if a bear does get food, never try to take it back.

## Wilderness

11

The parks have over 800,000 acres of designated wilderness that provide outstanding opportunities for solitude as well as primitive and unconfined types of recreation.

Knowing and following minimum-impact regulations helps to protect both the wilderness and your experience. Wild places are hazardous and help may not be available. Be prepared to be fully self-reliant.

Permits are required for all overnight trips. They are limited during the summer quota period (late May through late September) and cost \$15. Permits can be reserved by mail or fax beginning March 1. Outside of the quota period, permits are free and can be self-issued at the permit station or visitor center closest to your trailhead.

Jennie Lakes & Monarch wildernesses in the National Forest (FS): Permits are not required but please complete a registration card at Jennie Lakes trailheads. Information is used to manage the wilderness effectively. USFS requires a free fire permit for any open flame; downloadable from [www.fs.usda.gov/sequoia](http://www.fs.usda.gov/sequoia). Check for fire restrictions.

Camping in the park's "frontcountry" is permitted only in campgrounds. Camping or sleeping in vehicles is not allowed in parking lots, pullouts, picnic areas, or trailheads in the park.
