Notes

Notes:

You'll need to get an early start on the first day. If that isn't possible, for your first day hike up Madison Run to across from Austin Mountain. Turn right, cross the stream, and look for a place to camp.

This is a great hike in the winter or early spring if Skyline Drive is closed, or if you don't want to get wet due to cold weather or high water. The only potential problem is at the very beginning of the trip, getting onto Furnace Mountain. If you could safely cross, but will get wet, hike this route in reverse, getting wet at the very end of your trip. There is a bridge across Big Run between Brown Mountain & Rockytop.
