Delaware, Lackawanna and Western Railroad, Troop Sleeper #3621. C3621, 81562

Troop Sleeper, #3621. Pullman Company built and operated 2400 cars for military travel between 1943 and 1946. Troop sleepers used a simple boxcar design with 30 crosswise triple-deck bunks. The cars were sold to the railroads after World War II. Railroads converted them into an assortment of work cars, as did the DL&W. DL&W purchased 11 including this car for the series 2111 - 2121. Late 1950s the series changed to 3611 to 3621. Donated to Steamtown NHS by Conrail, January 1990.
