* The aggregate total of the Minimum Insurance Replacement Values for the individual assets listed in the tables above indicates only the minimum real property insurance coverage that the Concessioner must

procure and maintain in effect during the term of the Contract. Notwithstanding the inclusion of Minimum Insurance Replacement Values for the individual assets listed in the tables above, the Concessioner has an obligation, under Section 12(d)(1) of the Contract, to repair or replace damaged or destroyed Concession Facilities and personal property utilized by the Concessioner in the performance of its obligations under the Contract, regardless of cost. The Concessioner therefore should evaluate the various risks of loss to the Concession Facilities assigned to it under the Contract, including the risk of catastrophic loss, and procure real and personal property insurance it deems sufficient to cover those risks. The Concessioner will not be relieved of its obligations under Section 12(d)(1) of the Contract because its insurance proceeds are not sufficient to repair or replace damaged or destroyed property.

***Please note: The lack of value for an asset in the column for Insurance Replacement Value does not relieve the Concessioner of its obligation to insure the asset according to the terms of this Contract.*

**** 65208A (CN) (HS) 40 Jenny Lake Historic Comfort Station – Only the front half of the building, containing the toilet room and shower are assigned to the Concessioner. The rear portion of the building is used as an office by the Service. The IRV for this cabin only includes the portion of the cabin assigned to the Concessioner.*

***** 115375 (CN) R – Colter Bay Tent Village/Corrals Roads Rte-0255ZZ – Only the portion of the road included within the land assignment boundary shown on the map is the Concessioner's responsibility.*

****** 249746 (CN) UT - CBV Concessioner Water System and 249747 (CN) UT - CBV Concessioner Waste Water System are located in multiple Colter Bay Village land assignments.*
