

Project Eagle Nest Lake State Park Development, New Mexico

LWCF Funding Assistance \$1,500,000

A \$1.5 million LWCF grant will facilitate development of a new state park at Eagle Nest Lake in Colfax County. The grant to the New Mexico Energy, Mineral and Natural Resources Department will support development of a visitors center and boating and recreational support facilities.

"The Eagle Nest Lake area has always been a popular vacation destination for New Mexicans and others who have discovered it by happenstance. Designating it as a state park should help increase its appeal as a vacation spot, drawing visitors from all over the region."

~ U.S. Senator Pete Domenici

"Eagle Nest Lake has the potential to be one of the finest gems in our state park system. We are moving ahead with our planning, and looking forward to hearing ideas from the public, especially those in the lake communities."

~ Dave Simon, New Mexico State Parks Director
