

SUMMER 2013 NIGHT SKY SERIES

WHEN DARK SKIES COME OUT TO PLAY

May 4

June 1

July 13

Take advantage of Flagstaff's dark skies, and see the wonders of the Milky Way from Sunset Crater Volcano's Lava Flow Trail.

Attend a ranger program, learn to navigate the night skies, and view the stars through our telescopes.

Presented by the National Park Service, Lowell Observatory, the Coconino Astronomical Society, and the Astronomers of the Verde Valley.

Sunset Crater Volcano
