

National Park Service
**Introduction to the Planning, Environment and Public
Comment System (PEPC)**
Intermountain Regional Office, Denver, CO
July 24, 2014

This Instructor-led course will provide a detailed introduction to the PEPC system. The course will cover menu navigation, project search/tracking, reporting capabilities, resource tools and customization for your park/unit. The course will provide hands-on training where the student will create a project in PEPC, enter the funding status, set up an interdisciplinary team, fill out an Environmental Screening Form (ESF), set up a NEPA/NHPA pathway, create a document for internal review, create a public project page, post a public document, review public correspondence, and close a project.

Course Objectives:

1. What is PEPC?
2. How is PEPC going to be useful to you and your park/unit?
3. How is PEPC going to be useful servicewide?
4. How is PEPC going to be useful to the public?

Participants: Division chiefs, project managers, resource specialists, NEPA/NHPA specialists, resource managers, planners, facility managers, and maintenance personnel.

Dates: **July 24, 2014.** Class starts at 8:30 am and concludes at 4:30 pm.

Location: Intermountain Region, Class Room 10C, 12795 West Alameda Parkway, Denver, CO 80225
