

Climate Fundamentals Academy Training Workshop #2

Ft. Lauderdale, FL - March 29-30, 2016

The Climate Fundamentals Academy is a 3-part series of 2-day training workshops presented by the [Association of Climate Change Officers](#) (ACCO). The [Climate Fundamentals Academy](#) enables attendees to satisfy all course requirements for the Climate Governance Certificate, a credential issued through ACCO's CCO™ Certification Program. This is the second workshop of the series; the final workshop will take place June 14-15. Participants are welcome to attend one or all workshops in the series.

This workshop provides participants with a foundation for understanding greenhouse gas emissions and related reporting and disclosure frameworks; strategies for engaging stakeholders and leading organizational change; assessing the legal and policy landscape; and examining the economic implications of climate change. Participants will learn about specific initiatives in their localities, states and regions, as well as relevant national and international activity

WORKSHOP #2 OBJECTIVES:

- Describe the implications of climate change with an added regional focus
- Explain greenhouse gas emissions and related reporting and disclosure frameworks
- Identify strategies for engaging stakeholders and leading organizational change
- Articulate the process to assess the legal and policy landscape
- Examine and describe the economic implications of climate change
