

Climate Fundamentals Academy Training Workshop #2

Washington, DC – September 27–28, 2016

The Climate Fundamentals Academy is a 3-part series of 2-day training workshops presented by the [Association of Climate Change Officers](#) (ACCO). The [Climate Fundamentals Academy](#) enables attendees to satisfy all course requirements for the Climate Governance Certificate, a credential issued through ACCO's CCO™ Certification Program.

The second workshop of the National Capital Climate Fundamentals Academy provides participants with a foundation for understanding greenhouse gas emissions and related reporting and disclosure frameworks; strategies for engaging stakeholders and leading organizational change; assessing the legal and policy landscape; and examining the economic implications of climate change. Participants will learn about specific initiatives in their localities, states and regions, as well as relevant national and international activity. *You do not need to have taken the first course in the series to enroll in this workshop.*

Note: Additional Climate Fundamentals Academies will be held in the New England, South Florida, Southern California, Northern California, New Orleans, and Colorado regions during 2016.

WORKSHOP #2 OBJECTIVES:

- Describe the implications of climate change with an added regional focus.
- Explain greenhouse gas emissions and related reporting and disclosure frameworks.
- Identify strategies for engaging stakeholders and leading organizational change.
- Articulate the process to assess the legal and policy landscape.
- Examine and describe the economic implications of climate change.
