

Climate Fundamentals Academy *Training Workshop #3*

Ft. Lauderdale, FL - August 24–25, 2016

The Climate Fundamentals Academy is a three-part series of two-day training workshops presented by the [Association of Climate Change Officers](#) (ACCO). Attendance in the series enables the participant to satisfy all requirements for the Climate Governance Certificate, a credential issued through ACCO's CCO™ Certification Program.

The third and final workshop of the South Florida Climate Fundamentals Academy positions participants to leverage previous courses taken and develop strategic application skills in analyzing and quantifying climate related risks, making the case for climate action to c-suite executives and public officials, establishing a framework for an organizational/regional adaptation plan, and understanding relevant public health implications. Workshop participants will learn from subject matter experts with a focus on the south Florida region.

Note: Additional Climate Fundamentals Academies will be held in the New England, National Capital, Southern California, Northern California, and Colorado regions during 2016.
