The NPS Biological Resource Management Division will be hosting an interactive webinar on February 20th from 3-5pm EST to address rodent-related management issues, health concerns for parks, and development of a sustainable and collaborative integrated pest management program for your park. This webinar will introduce participants to NPS policies, concepts of rodent biology, disease/safety concerns and precautions, and detection and monitoring strategies. The webinar will include links to updated NPS resources and an open question and answer session, and will be complimented by a second webinar at a later date addressing the how-to's of rodent exclusion, trapping, and follow-up. All park managers, resource managers, concessioners, facility managers, and any employees that deal with rodents are invited to attend. Please contact Danielle Buttke, DVM, PhD, MPH, One Health Coordinator with questions at Danielle_Buttke@nps.gov.

Title: *Rodents in the NPS: Rodent-related Diseases and Integrated Pest Management*
