Policy: Section 8

The Secretary delegates to the individual agencies the authority for policy development and implementation that ensures expenditures are within the identified expenditure categories and the definitions developed for this document.

Policy: Section 8(a)(1)

Each DOI agency will use a dual accounting system, with a collection account and an expenditure account, in order to successfully track collections and track expenditures. The USFS does not use a dual accounting system, but is capable of accounting for collections and expenditures separately. An agency cannot spend from a collection account, but only from an expenditure account.

Definition: Section 8(a)(3)(A)

Health and Safety: The repetition of the terms “related to” and “visitor” in the language of the law leads to the determination that the intent is facility expenditures on visitor health and safety.

8(a)(3)(E) direct operating or capital costs associated with the recreation fee program;

DRAFT

8(a)(3)(F) a fee management agreement established under section 6(a) or a visitor reservation service.

Definition: Section 8(a)(3)(E)
Direct Costs: The direct operating or capital costs, also known as “cost of collection,” associated with the recreation fee program are the costs that occur as a direct result of collecting, remitting, transporting, protecting, storing, or securing fee funds at a site. These expenses may include:

- Salaries, benefits, and training;
- Fee collection equipment and upkeep;
- Security services and equipment; and
- Communication needs such as signage and phones.

Section 8(a)(3)(E) establishes a distinct expenditure category for the direct operating cost or cost of collection for accountability in reporting.

Policy: Section 8(a)(3)(E)
Performance measures established for the Recreational Fee Demonstration Program for each agency in Department of Interior include a target for cost of collection that is a percentage of the agencies annual fee receipts. The performance measure targets are:

Agency	FY 2005	FY 2006
Bureau of Land Management	15%	15%
Fish and Wildlife	20%	20%
National Park Service	25%	26%

Definition: Section 8(a)(3)(F)
Fee Management Agreement: Section 8(a)(3)(F) establishes a distinct expenditure category for the cost of implementing a fee management agreement and a visitor reservation service, and will be accounted for and reported as a separate expenditure category.

8(b) Limitation on Use of Fees.--The Secretary may not use any recreation fees for biological monitoring on Federal recreational lands and waters under the Endangered Species Act of 1973 for listed or candidate species.

DRAFT

Definition: Section 8(b)

National Environmental Protection Act (NEPA) requires one-time actions termed survey, clearance, or inventory of the listed or candidate species as a part of the compliance process. These one time actions are not considered monitoring as defined under the Endangered Species Act (ESA). Under the ESA, “monitoring” is defined as a distinct action with an established frequency or repetition, and monitoring is associated with recovery activities for listed or candidate species. Resulting from the NEPA process, mitigation actions may be required to insure that a project does not jeopardize the continued existence of an endangered or threatened species or result in the destruction or adverse modification of critical habitat.

Policy: Section 8(b)

Each participating agency will ensure that no recreation fees are being expended for actions on biological monitoring under the Endangered Species Act for listed or candidate species. By policy, the excluded activities associated with listed or candidate species under the Endangered Species Act are expanded to include the writing of ESA-required recovery plans and mitigation that is generated by the implementation of a recovery plan. NEPA establishes a process that an agency must undertake prior to proceeding with certain visitor events or activities or with projects to enhance visitor facilities and services. In such cases, the definition and policy in this document allow for the use of recreation fees for surveys, inventories, and mitigation actions during an event, activity, or project execution that are required as a result of the NEPA process, even if the actions may be consistent with a recovery plan.

8(c) Administration, Overhead, and Indirect Costs.--The Secretary may use not more than an average of 15 percent of total revenues collected under this Act for administration, overhead, and indirect costs related to the recreation fee program by that Secretary.

8(d) Transitional Exception.--Notwithstanding any other provision of this Act, the Secretary may use amounts available in the special account of a Federal land management agency to supplement administration and marketing costs associated with--

8(d)(1) the National Parks and Federal Recreational Lands Pass during the five-year period beginning on the date the joint guidelines are issued under section 5(a)(7); and

8(d)(2) a regional multientity pass authorized section 5(d) during the five-year period beginning on the date the regional multientity pass agreement for that recreation pass takes effect.

Definition: Section 8(c)

15 Percent- The 15 percent includes only those costs not listed as separate expenditure activities under Section 8(a)(3)(A-F) and 8(d), but which are necessary for the administration of the recreation fee program. Examples of administration, overhead, and indirect costs include:

- Budget development and program planning to include the administration of regional and national recreation fee programs;
- Administrative support (e.g., procurement, contracting, office services, property management, preparation, and distribution of reports, and document control); and
- Public notification and information.

They do not include the costs which can be directly attributed to providing a specific service or executing a specific project such as a campground rehabilitation project.

Policy: Section 8(c)

Each agency will limit Administration, Overhead, and Indirect costs to no more than 15 percent of their total revenues. The National Park Service will be reporting America the Beautiful Pass start-up costs support under this category until the transitional exception begins. During this time period, National Park Service may exceed 15 percent.

Definition: Section 8(d)

Transitional Exception: Establishes a distinct expenditure category for the costs of implementing the America the Beautiful Pass and for regional multientity passes. When guidelines and/or agreements are in place, these costs will be accounted for and reported as a separate expenditure category for the first 5 years after the guidelines and/or agreements are in place.

Policy: Section 8(d)

The Secretary will use amounts available in the special accounts of the National Park Service to support administration and marketing costs associated with the start-up of the America the Beautiful Pass authorized under this Act until America the Beautiful Pass revenues are available. These support costs will be repaid to the National Park Service from the America the Beautiful Pass' centralized sales once the sales of the America the Beautiful Pass generates enough revenue to repay the National Park Service in full.

SEC. 9. REPORTS.

Not later than May 1, 2006, and every three years thereafter, the Secretary shall submit to the Congress a report detailing the status of the recreation fee program conducted for Federal recreational lands and waters, including an evaluation of the recreation fee program, examples of projects that were funded using such fees, and future projects and programs for funding with fees, and containing any recommendations for changes in the overall fee system.

Policy: Section 9

(The cost of the multientity pass for significant volunteer hours will be part of the multientity administrative costs).

12(d) *Limitation on Penalties.*--The failure to pay a recreation fee established under this Act shall be punishable as a Class A or Class B misdemeanor, except that in the case of a first offense of nonpayment, the fine imposed may not exceed \$100, notwithstanding section 3571(e) of title 18, United States Code.

SEC. 15. LIMITATION ON USE OF FEES FOR EMPLOYEE BONUSES.

Notwithstanding any other provision of law, fees collected under the authorities of this Act may not be used for employee bonuses.

Policy: Section 15

Recreation fees collected under this program may not pay for employee bonuses. The Office of Personnel Management identifies two types of bonuses – recruitment and relocation. For the implementation of REA, the one-time payment of performance-based awards to an employee will be considered a bonus. A Quality Step Increase award will not be considered a bonus since they are embedded as recurring salary. This exception applies only to Quality Step Increase awards for those employees whose job is directly tied to the recreation fee program and whose salary is paid from recreation fee dollars.
