Welcome

Welcome to this TEL (Technology Enhanced Learning) training event. We are excited that you will be joining us today for *Interview Skill for Supervisors: Finding the Best Match*, and we look forward to helping you to get as much out of this time as possible.

Your participation is an important part of this class. If you have a question, don't hesitate to ask. There are probably several others in the class who have the same question – you might as well be the one to ask. It is our goal that you leave class today with no unanswered questions.

How to Interact with the Instructor

We encourage you to ask questions and share your comments with the instructors throughout this TELNPS course.

If you were physically in the classroom with the instructor, you would raise your hand to let her/him know you had a question or comment. Then you would wait for the instructor to recognize you and ask for your question. We are all familiar with that “protocol” for asking questions or making comments.

With TELNPS courses there is also a “protocol” to follow to ensure that you can easily ask questions and others can participate as well. It may seem a little strange at first asking a question of a

TV monitor. Remember, it is the instructor you are interacting with and not the monitor. As you ask more questions and participate in more TELNPS courses, you will soon be focusing only on the content of your question and not the equipment you are using to ask it.

As part of the TEL station equipment at your location, there are several push-to-talk microphones. Depending on the number of students at your location, you may have one directly in front of you or you may be sharing one with other students at your table.

When you have a question, press and hold down the push-to-talk button, maintaining a distance of 12-18 inches, and say,

“Excuse me [instructor’s first name], this is [your first name]

at [your location]. I have a question (or I have a comment).”

Then release the push-to-talk button. This is important.

Until you release the button, you will not be able to hear the instructor.

The instructor will acknowledge you and then ask for your question or comment. Stating your name and location not only helps the instructor, but also helps other students who are participating at different locations to get to know their classmates.

The TEL Station Site Point-of-Contact must reserve the training room, notify employees that the park will be participating in this TEL training event, make sure the Participant Guide is available to students, set up the TEL Station on the day of the training, make sure students sign in on the attendance roster, and finalize the Class Attendance Roster in DOI Learn.

Interview Skills for Supervisors: Finding the Best Match Course Map

Reasons for Investing in the Interview Process

Break into small groups for the following exercise. Be sure to designate a spokesperson for your site and be ready to share your list!

Think about:

What are some challenges that you have experienced, or that you have seen other supervisors experience, when it comes to interviewing or selecting applicants for a vacant position?

List your interview challenges here:

Today's Goal

- Will be filling a vacant seasonal position for a Visitor Use Assistant (VUA)
- Has already been advertised
- HR office provided certificate of eligibles
- You will be making a decision

Merit System Principles and Prohibited Personnel Practices

Refer to the documents on MSPs and PPPs below. Highlight those that, for your protection, you will need to be especially careful to comply with during the interviewing process.

MERIT SYSTEM PRINCIPLES adapted from 2301(b) of title 5 USC by the U.S. Office of Personnel Management:

1. Recruit, select, and advance on merit after fair and open competition.
2. Treat employees and applicants fairly and equitably.
3. Provide equal pay for equal work and reward excellent performance.
4. Maintain high standards of integrity and concern for the public interest.
5. Manage employees efficiently and effectively.
6. Retain or separate employees on the basis of their performance.
7. Educate and train employees if it will result in better organizational or individual performance.
8. Protect employees from improper political influence.
9. Protect employees against reprisal for the lawful disclosure of information in “whistleblower” situations.

PROHIBITED PERSONNEL PRACTICES adapted from 2302(b) of title 5 USC by the U.S. Office of Personnel Management:

1. Illegally discriminate for or against any employee/applicant.
2. Solicit or consider improper employment recommendations.
3. Coerce an employee’s political activity.
4. Obstruct a person’s right to compete for employment.
5. Influence any person to withdraw from competition for a position.
6. Give unauthorized preference or improper advantage.
7. Employ or promote a relative.
8. Retaliate against a “whistleblower” whether an employee or applicant.
9. Retaliate against employees or applicants filing an appeal.
10. Unlawfully discriminate for off-duty conduct.
11. Knowingly violate veterans’ preference requirements.
12. Violate any law, rule, or regulation which implements or directly concerns the merit principles.

Exercise: Which Path Is He/She On?

The path to hiring a new employee or the path to having to hire an attorney?

Consider each of the 4 scenarios below. Take a few minutes to identify whether or not there is a problem with the supervisor's behavior/actions. Try to determine whether a Merit System Principle or Prohibited Personnel Practice is involved.

Which Path? Case #1

While reviewing applicants for a VUA position, the supervisor notices that Jane has a B.S. in Computer Science. He immediately moves Jane's application to the top of the pile.

Which Path? Case #2

A supervisor has one veteran on her certificate of eligibles. When describing the job to the veteran, the supervisor tends toward the negative aspects of the job. When describing it to others, she is more neutral to positive.

Which Path? Case #3

The Chief of Interpretation calls the Fee Supervisor in his park and encourages him to be on the lookout for an application that his son is submitting for a seasonal VUA position. He mentions he feels that his son would be very responsible and is looking forward to the opportunity to work at the same park as his dad for the summer.

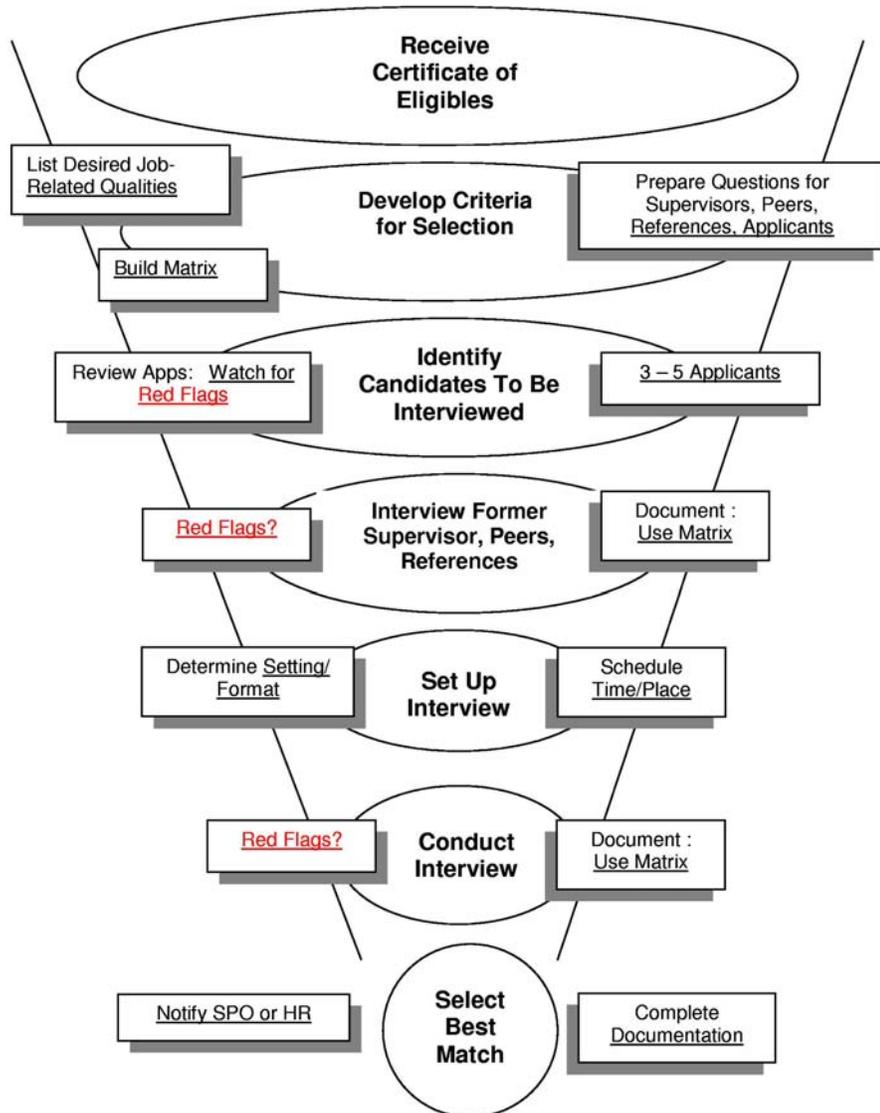

Which Path? Case #4

A supervisor is struggling with accomplishing the unit's workload because two employees are out for 12 weeks each on FMLA leave related to the birth of new children. During the course of interviewing applicants, the supervisor asks whether or not the applicant is expecting, or in the case of male applicants, whether the spouse is expecting.

Interview and Selection Process

The Interview Process: Selecting the Best Match

Interview and Selection Process, cont'd.

How To Develop Rating Criteria (Job Analysis)

- What is your "vision" of a successful incumbent?
- Go beyond KSA's to actual experiences and demonstrated understanding
- Beginnings of performance elements for position—preliminary rating
- Strategic way to approach the interviews consistently and legally

Example of a "Job-Related Quality" for a VUA

Job experience in dealing with the general public

Developing a Detailed Rating Scale

- Incorporates behaviors of high-performing employees
- Promotes objectivity
- Promotes consistency
- e.g., give numerical scores to the applicant's answers or categorize them

Simple Rating Scale

Should identify "unacceptable" responses, "acceptable" responses, & "excellent" responses

(do this before the interviews)

Rating Summary for VUA

Criteria: *Job experience in dealing with general public*

Rating Scale:

- Excellent (2 pts.) = 2+ years' total experience in customer service positions
- Acceptable (1 pt.) = Held at least 1 job involving contact with public
- Unacceptable (0 pts.) = No actual customer service experience

Exercise: Developing a List of "Job-Related Qualities"

Think about the criteria that you will be looking for as you review the applications and interview candidates for the VUA position (Appendix A).

After you have developed a list of 3 or 4 criteria, write them on the matrix at Appendix C.

Red Flags

Application Red Flags

- Gaps in employment history
- Questionable dates
- Level of responsibility – if the job title and the description don't match
- Cannot contact current employer
- Dramatic departure from educational background
- Departing a permanent Federal job before the end of 1 year

Interview Red Flags

- Oral description doesn't match written description
- Level of expertise is not obvious from oral description
- Argumentative
- Evasive and noncommittal
- Speaks ill of former employers
- Angry body language – scowl, crossed arms
- Responses like “usually works well with others” from references

Exercise: Capture the Flag!

Look at the excerpts from the VUA candidate applications in Appendix B and identify any red flags. **Make note of any red flags on your matrix at Appendix C.**

Write 1 question that would elicit a helpful response from a peer of one of the VUA applicants.

Write 1 question that would draw out more objective, less biased information from a reference provided by an applicant.

As you check with supervisors, peers, and references, remember to document information and impressions using the matrix you've prepared.

Conducting the Interview

Setting Up the Interview

Some things to remember:

- Responsibility rests with you as the supervisor, the selecting official; it should not be delegated.
- Consistency in contacts you make with applicants is important toward achieving the overall goal.
- The crediting plan is confidential. You should not have lower-graded employees involved, because they may gain an advantage in future competition (primarily with permanent positions).
- Consider interviewing at least the top 3 applicants.
- You should interview references and former supervisors for each of at least the top 3 applicants.

Determine setting and conditions for interview:

- Panel vs. Individual (VUA would be individual. Why?)
- Faxing questions ahead of time: Should you or shouldn't you?

Scheduling the Interview

Give plenty of advance notice and give everyone the same opportunity to succeed. Here is a list of items to include as you schedule with the applicant.

- Verify interest in job.
- Inform the applicant that you will be calling former supervisors, co-workers, and references.
- Provide information re job duties, geographic location, housing, etc.
- Schedule time for interview (allow yourself 5-10 min. afterwards).
- Schedule place for interview (if in person). Do all the same way. If you interview some by phone, do all by phone, out of fairness.
- Leave call back number and alternative contact.

20 Steps to Follow in the Interview

What specifically will you need to remember as you interview the VUA candidates?

Setting the Stage

1. Use the contact record form (“matrix” in Appendix C of this guide)
2. Quiet place, free from interruptions (no telephones or radios).
3. Are you nervous? Relax. Put the applicant at ease.
4. Be friendly.

Taking Control of the Interview by Defining Objectives

5. Review the purpose of the interview and your plan.
6. Review the job/location/work schedule/other pertinent info.
7. Tell the applicant if you’re taking notes.
8. Remember! Talking = 75% applicant, 25% you.

Questioning

9. Work through your prepared questions.
10. Don’t allow answers to run on excessively.
11. Be clear and concise.
12. Consider using rating scale for answers. (Minimum=1, Good=3, Best=5)

Using the Matrix

13. Be aware of the criteria you set up.
14. Be attentive to positives and “red flags.”

Selling Your Opportunity

15. Be enthusiastic about your job and working for the NPS.
16. Do not offer comments about applicants’ “fit” yet.

Closing

17. Answer applicant’s questions.
18. Don’t feel obligated to answer sensitive questions. For example, *How did I do? Where do I fall? Is this job already planned for someone else?*
19. Tell applicants where you are in the process and when they will know the results.
20. End on a positive note and thank them for their time.

After the Interview

Document your impressions and questions/concerns on the matrix following each interview. Write It Down and Keep It In a Safe Place!

- The minute you hang up the phone, take a few minutes to write down your impressions.
- Review the matrix and other interview notes (with references as well as with applicants).
- Note particularly positive or questionable answers.
- Why critical?
- Where does it go? Staffing file in HR, desk file.
- Contact the SPO to advise of selection.
- Courtesy call to those interviewed who were not selected. (Optional, but a “touch of class.”)

Record Keeping

- CFR regulations – safeguard your cert and the information contained within.
- Interview notes – maintain for a reasonable period of time.
- Specific documentation – maintain for a reasonable period of time; copy to HR.
 - Declinations, questions, problems, etc.
