Photograph Greg Miller

Join Hudson Valley Landscape Photographer Greg Miller for a unique photography experience on the bluffs of the Vanderbilt Mansion National Historic Site, overlooking the majestic Hudson River Valley.

Learn why the Summer Solstice is the perfect time to photograph the Shawangunk and Catskill Mountains, gain insight into making compelling artistic landscape images, learn the many ways to approach landscape photography.

Greg's love of Nature and the Hudson River Valley has established him as premier photographer for Scenic Hudson, Audubon New York, Appalachian Mountain Club, Earth River Expeditions and Hudson Valley Magazine.

Greg leads private photography workshops and workshops for organizations such as the Center for Photography at Woodstock, New York, the Adirondack Photography Institute, Olana, New York State Historic Site and the National Park Service, Community Photography Workshops.

Be part of this once a year photo opportunity, see the Vanderbilt Estate in a different light, support your National Historic Sites in a artistic manner.

Please park in the Vanderbilt Mansion main parking lot and proceed north to the over look parking lot, tri-pod and camera shutter release, highly recommended.
