NATIONAL PARK SERVICE  
War in the Pacific National Historical Park  
135 Murray Boulevard, Suite 100  
Hagåtña, GU 96910

IN REPLY REFER TO:  
10.D (WAPA)

Administrative Order # 22-01  
09 March 2022

## **Closures, Restrictions, and Public Use Limits:**

**Restrictions and Public Use Limits:** Under the authority provided to the Superintendent in 36 CFR 1.5(a)(2) the following activities are restricted in War in the Pacific National Historical Park, effective immediately, until further notice:

- When the COVID-19 Community Level is **LOW** or **MEDIUM** in the county or all the counties where the park is located based on data provided by the Centers for Disease Control and Prevention (CDC), individuals are not required to wear masks.
- When the COVID-19 Community Level is **HIGH** in the county or all the counties where the park is located based on data provided by the CDC, all individuals over the age of two must wear masks, regardless of vaccination status, in all common areas and shared workspaces in buildings owned, leased, or otherwise controlled by the National Park Service, including, but not limited to, park visitor centers, administrative offices, lodges, gift shops and restaurants.
- When the COVID-19 Community Level is **HIGH** in one or more, but not all, of the counties where the park is located based on data provided by the CDC, the superintendent will determine whether individuals are required to wear masks. The requirement, if any, will apply to all facilities within the park.
- Masks must cover the nose and mouth and fit snugly around the nose and chin with no large gaps around the sides of the face. Masks not designed to be protective, masks with ventilation valves, and face shields do not meet the requirement.
- Regardless of the COVID-19 Community Level, individuals may wear masks if they choose to do so. Where a state, local, tribal, or territorial government where the park is located imposes more protective mask-wearing requirements than those indicated by the COVID-19 Community Level, individuals must follow those more protective requirements within the park. More protective state, local, tribal, or territorial mask-wearing requirements are hereby adopted as federal requirements in all units of the National Park System located within that state, locality, area subject to a federally recognized Indian tribe's regulatory jurisdiction, or territory, regardless of a particular park's jurisdictional status.
- Additionally, all individuals must wear masks in or on public transportation conveyances and transportation hubs/facilities, to the extent required by current orders or directives issued by the CDC, the Transportation Security Administration (TSA), or other federal agencies with jurisdiction over those conveyances or areas. As of March 4, 2022, CDC and TSA orders or directives require all individuals regardless of vaccination status to

wear masks in indoor areas of all forms of public transportation conveyances, including busses, trains, and boats/ferries, and in the indoor premises of transportation hubs/facilities. Individuals are not required to wear masks while outdoors on conveyances or while outdoors on the premises of transportation hubs/facilities.

Authority: 36 CFR 1.5(a)(2)

Notice: This administrative order applies to all individuals subject to the regulatory authority of the National Park Service (NPS) within the boundaries of War in the Pacific NHP, including park visitors, government employees, concession employees, park residents and stakeholders.

Finding: The NPS issues this administrative order for the purposes of maintaining public health and safety during the COVID-19 pandemic emergency. The National Park Service works with the Centers for Disease Control and Prevention as well as state, tribal, and local public health authorities, and the Federal Emergency Management Agency to ensure the safety of park visitors, employees, volunteers, and partners.

These directives require the NPS to take the actions identified, as appropriate and consistent with applicable law, to require compliance with Centers for Disease Control and Prevention guidelines with respect to wearing masks, maintaining physical distance, and other public health measures by on-duty or on-site Federal employees; on-site Federal contractors; and all persons in Federal buildings or on Federal lands.

In addition to physical distancing and hand washing, masks are a critical step to help prevent people from getting and spreading COVID-19. When you wear a mask, you protect others as well as yourself.

- COVID-19 spreads mainly from person to person through respiratory droplets. Masks are a simple barrier to help prevent respiratory droplets from reaching others.
- Masks can prevent the spread of the disease even when the wearer is not sick. This is because several studies have found that people with COVID-19 who never develop symptoms (asymptomatic) and those who are not yet showing symptoms (pre-symptomatic) can still spread the virus to other people.
- Masks may not be necessary when you are outside by yourself away from others, or with other people who live in your household.
- It is especially important to wear a mask indoors with people you do not live with and when you are unable to stay at least 6 feet apart because COVID-19 spreads mainly among people who are in close contact with one another.

This order is effective immediately and will remain in effect until further notice. The effectiveness of this order will be assessed on an ongoing basis, and the order will be modified or rescinded when conditions warrant.
