Color Me

Lizards at White Sands National Monument have adapted in certain ways to survive in the dune field. Their eyes work like sunglasses and they have longer toes which may help them run in the sand. The white color of their skin means that their predators, like the great horned owl, can't see them on the sand.

Color the lizard and background to match each other.

Scavenger Hunt

Check mark the circles as you find each one.

Junior Dunes Ranger Pledge

I, _____,
 promise to learn all I can about
 national parks and what makes each
 one special; To learn and follow all
 safety rules; To respect and help
 protect the environment and all
 the parts of it (both living and
 non-living) for today and always;
 To become a Junior Ranger
 in other national parks.

Become a WebRanger

As a WebRanger, you'll learn what Park Rangers do to help protect our natural resources and our cultural heritage. You'll also learn how Park Rangers observe and discover new things about our national parks —things to share with your friends. www.nps.gov/webrangers/
