

# Yellowstone National Park Birds

Student Name: \_\_\_\_\_

Date: \_\_\_\_\_

What kinds of birds live where you live?

---

---

---

---

Create a common name for a bird you see often:

---

Can you approach a bird or nest in Yellowstone National Park?

Why or why not?

---

---

---

Draw a mountain bluebird in its habitat:

What is the fastest animal on the planet? Why is it so fast?

---

---

---

---

Scientists use the metric system so they can share information internationally. If an animal reaches a speed of 200 miles per hour while diving, how fast is it traveling in kilometers per hour?  
(1 mile = 1.6 kilometer)

Name two birds, which were once endangered, but have recovered in Yellowstone National Park. What helped them recover?

---

---

---

---

---

---

---

---

How can you help protect birds in Yellowstone National Park and at home?

---

---

---

---

---

---

What were you most excited to learn from this program?

---

---

---

---

---

---

What are two questions you still have?

1.

2.

Write a bird Haiku: (5-7-5 syllables)

*Example:*

Birds are so pretty

They fly through clouds and mountains

I wish I was one!

---

---

---
