## Get kids outdoors for better health

### Junior Ranger

If you are age 4 or older, you can become a Yellowstone Junior Ranger. Stop by any visitor center to purchase a new Junior Ranger activity booklet for \$3. To earn your official Yellowstone Junior Ranger patch, you need to:

- Hike on a park trail or boardwalk.
- Complete the age-appropriate activities on geothermal geology, park wildlife, and fire ecology.
- Attend a ranger-led activity—such as a talk, guided walk, or evening campfire program—and get the ranger's signature.

Both children and adults benefit by learning more about the natural wonders of the park and sharing the fun of becoming a Junior Ranger.

### Let's Move Outside

Regular exercise in nature is proven to improve children's physical and mental health. Outdoor activity helps kids maintain a healthy weight, boosts their immunity and bone health and lowers stress. Get active in Yellowstone by hiking along park trails or boardwalks, taking a guided walk with a ranger, or participating in the Yellowstone Wildlife Olympics. Afterwards, you can pick up a "Let's Move Outside" sticker or temporary tattoo from a park ranger at a visitor center.

Take part in First Lady Michelle Obama's campaign to get kids and families to take advantage of America's great outdoors—for better health and to connect with the natural world.

### Young Scientist

If you are age 5 or older, you can become a Yellowstone Young Scientist. Purchase a self-guiding booklet for \$5 at the Canyon Visitor Education Center (ages 10 and up) or Old Faithful Visitor Education Center (ages 5 and up). If you are investigating in the Old Faithful area, check out a Young Scientist Toolkit for the gear you need. When you have finished the investigation, you will be awarded a Young Scientist patch or key chain.
