Subject RE: Yosemite National Park E-Newsletter

YOSEMITE NATIONAL PARK

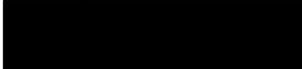

Sir --

THANK YOU!!

I have my "personal Tenaya Lake survey trip" scheduled for next week (I have to do it before the Tioga Road is closed to day parking on 10/15), and will get my comments to you before 10/18. Thank you for the opportunity to participate. I am looking forward to being involved. I am particularly fond of the Tenaya area, from the Pywiack Cascade (headwall of Tenaya Canyon) through Olmsted Point and up to where the Tioga Road drops to Pothole Dome, and from the Lower Cathedral Lake outlet cascade to Polly Dome Lakes in the transverse direction.

El Segundo, CA 90245

**Public Scoping Period Extended for The Tenaya Lake Area Plan**

*Scoping period now open until October 18*

Tenaya is the largest lake in Yosemite's front-country, and because of its remarkable scenic qualities and its proximity to Tioga Road, it is one of the most popular destinations for summer visitors in Yosemite . Problems associated with visitor use, visitor safety, and resource impacts have been occurring for decades .
