

Your Comments Are Important!

This workbook contains descriptions of four preliminary site plan concepts for Tuolumne Meadows: one for each of the four original management zoning alternatives. The range of the site plan concepts reflects the range of interests and concerns expressed by park managers and staff, associated Indian tribes, and the public during several years of internal and external scoping and review. Your feedback now on what you see as the advantages and disadvantages of each concept will be helpful in pulling together a site plan for the preferred alternative. We also encourage you to provide your own ideas about a site plan concept for the preferred alternative. A map and comment space for that exercise are inside this folded sheet.

Once you have shared your comments, you can mail this form to the planning team: Carefully fold the form where indicated, tape shut the top and sides, add postage (*thank you!*) and place it in the mail. You can also submit comments by email (preferably by answering the questions on this comment form) and sending them to yose_planning@nps.gov, or you can fax your comments to 209/379-1294. **To be considered in the alternatives development process, comments should be received no later than September 15.**

Please refer to pages 30 and 31 of the workbook to see the preferred alternative zoning map and summaries of what that zoning would mean for management and use at Tuolumne Meadows. Ideas about site design that would not be consistent with that overall guidance would best be captured by commenting on the other alternatives, above.
