

Merced Wild and Scenic River
Draft Comprehensive Management Plan and Environmental Impact Statement

ERRATA SHEET

March 2013

Chapter 8, pages 8-29 and 8-39: Boating reference should state that boating activities would not be allowed in Segments 1 and 5 under the No Action alternative. The Superintendent's Compendium states that free-flowing water is currently closed to vessels in Segment 1 and Segment 5 (36 CFR § 1.5(a)(1); 36 CFR § 1.5(f)).

Chapter 8, page 8-85: List of employee housing changes for Common to Alternatives 2-6 should include new housing for 164 employees at Huff House as a replacement for the temporary units removed in this area.

Chapter 8, page 8-274: In Table 8-44 titled "Additional Actions to Protect and Enhance River Values, Alternative 6," the free-flowing statement should read that no bridges will be removed. In the future, bridge removal could be considered if engineering solutions, after 10 years, do not accomplish the restoration goals for free-flowing condition.
