

Stock Site Evaluation Project Johnson Lake

Yosemite National Park
California

National Park Service
U.S. Department of the Interior

Forage Area: There is understory forage and small meadows along western, northern, and eastern edges of the lake.

Johnson Lake

Camp ID: 26

Fire ring: 277,793mE x 4,160,961mN

Handling Practices: The site is located on the northeast side of the lake. There is no clear access route to the fire ring, which is approximately 40 m south of the NPS system trail on the northern edge of a meadow that borders the lake. The unloading area is next to the fire ring. No preferred holding area has been established, but stock should be held in previously disturbed areas close to the trail, if possible.
